Clarity of Mind Edwin Wegman, 2002-01-29 One's sets of beliefs have remarkable influence throughout the mind both in general attitudes and in governing how the mind apprehends and comprehends the outside world It is important to know these beliefs for what they are in order to assess and if necessary counterbalance their pervasive effects They can both blind and hypersensitize They are only imperfectly encapsulated Much of the history of philosophy is a concern with distinguishing beliefs from reality What can we know and how do we know it Belief precedes
