Tell Somebody! Lena T. Edwards, 2010-07 We need to tell our story so others will benefit What have you been through that will help someone facing the same problem God allows the storms to give us opportunity to discover who He is He wants us to know He is always with us even during our darkest hours of life God has snatched many of us from bad situations keeping us out of jails hospitals mental institutions or safe from certain death We don't mind acknowledging Him when we are in need but after our storms are over we never tell others that the Lord helped us How do we expect unbelievers to call on Him for help in a storm if we never share Him with others Our story or testimonies make a world of difference in others lives Some could be enduring what you have already been through looking for a way out Can you help Are you willing to tell them how God helped you Our testimony gives God the glory for our lives I have seen many people on television that were miraculously saved from a disaster or an incurable illness who gave the credit to luck God is the Master Mind and organizer of life I've learned it is a privilege and honor to be given opportunity to share His amazing love and power and at the same time give someone else the opportunity to know Him God desires all the glory from our lives because our story is His story History When has luck or anyone else crucified died and rose again to save the world from sin and eternal damnation If more believers would simply share with others what God has done for them more hurting people would have something solid to lean on We all know there is nothing as solid as God If believers don't tell then who will **Rare** Robert Bissett, **A**

The Best Kind of College Susan McWilliams,John E. Seery,2015-07-06 The fevered controversy over America s educational future isn t simply academic those who have proposed sweeping reforms include government officials politicians foundation officers think tank researchers journalists media pundits and university administrators Drowned out in that noisy debate are the voices of those who actually teach the liberal arts exclusively to undergraduates in our nation s small liberal arts colleges or SLACs The Best Kind of College attempts to rectify that glaring oversight As an insiders guide to the liberal arts in its truest form the volume brings together thirty award winning professors from across the country to convey in various ways some of the virtues the electricity and overall the importance of the small seminar face to face approach to education as typically featured in SLACs Before we in the United States abandon or compromise our commitment to the liberal arts oddly enough precisely at a time when our global competitors are discovering emulating and founding American style SLACs and new liberal arts programs we need a wake up call namely to the fact that the nation s SLACs provide a time tested model of educational integrity and success *Official Gazette of the United States Patent and Trademark Office*
