American Government and Politics Today Mack C. Shelley, Barbara A. Bardes, Steffen W. Schmidt, 1994 **American Government and Politics Today**, 2007 The American Ethos Pasquale De Marco, 2025-05-09 The American Ethos is a comprehensive exploration of the American ethos the set of beliefs values and attitudes that are shared by the vast majority of Americans In this book we will examine the historical roots of our beliefs and values and we will consider how they have been shaped by our experiences as a nation We will also look at the ways in which the American ethos is reflected in our culture our politics and our society One of the most important aspects of the American ethos is our belief in the individual We believe that each person has the potential to achieve great things and we value hard work self reliance and personal responsibility We also believe in the importance of freedom and equality and we have fought long and hard to protect these values The American ethos is also characterized by a strong sense of optimism and hope We believe that the future is bright and we are always looking for ways to improve our lives and the lives of our children We are a nation of dreamers and doers and we are always striving to make our dreams a reality Of course the American ethos is not without its critics Some people argue that our individualism has led to a decline in community and social responsibility Others argue that our optimism has blinded us to the challenges that we face as a nation And still others argue that our belief in freedom and equality has been compromised by our growing economic inequality Despite these criticisms the American ethos remains a powerful force in our society It is a source of strength and inspiration and it helps us to overcome the challenges that we face The American ethos is what makes us unique and it is what makes us great The American Ethos is a must read for anyone who wants to understand the American people and the values that we hold dear It is a timely and important book that will help us to navigate the challenges of the 21st century and build a better future for all Americans If you like this book write a review on google books **American Government and Politics Today** Bardes, Barbara A. Thomas M. Lemberg, 2013-11-25 **Difficult Times** A Fresh Look at Democracy in Modern America is a book on why America is so distressed angry and divided and why our politics are so badly broken It delves more deeply than conventional works into the issues we face and our political troubles to offer a fresh look to understand why we are in such difficult straits America has always been a nation of doers ready and mostly able to fix what needs fixing But not now Why can't we get at solving our major problems Why are our politics so starkly split and dysfunctional Why are we on all parts of the political spectrum so angry insecure decreasingly tolerant and increasingly dogmatic We need to know you can't fix what you don't understand But we have not understood what ails democracy in modern America We need a fresh look at how and why we have gotten here

to seek the underlying causes of the angry national malaise That is what Difficult Times seeks to do In a very few words what ails modern America are the interlocking effects of the ideas economy and culture and politics of the modern world There are three sets of causes which like some chemicals in a test tube are more combustible together than alone First the dominant ideas of the modern world view secular materialism and the contemporary form of individualism have wounded the psyches and if one can be so bold as to use the word the souls of many Americans Secular materialism is at odds with faith spirituality and religion Contemporary individualism makes it easy to avoid personal responsibility and self reliance These ideas have alienated and angered many traditional and religious Americans and have left holes in the hearts of many who are not They have led to divisive changes in the old national moral code Moreover our economic and political thinking has been taken over by an extreme free market ideology which Adam Smith would have disdained The second set of causes is the result of the forces of modern mass society and culture For a majority of Americans even before the Great Crash the American economy was not working nearly as well as advertised Growing disparities in levels of income and wealth have created a class society in which the American dream has receded for much of the country We feel at sea in the gales of mass culture rapid change and lost community Among other things it is hard to be the active citizens the Founders considered the bedrock of the new republic when public affairs are dominated by mass media and money and the sense of local and national community have been much diminished The third set of causes is what has happened to American politics We are discomfited because our democracy is working poorly our politics polarized angry and dysfunctional the Republicans captured by the hard Right while liberalism alienated itself from a large part of the country including much of its old constituency The nation s major problems are solvable with political will and skill but our political system seems incapable to address them Our politics and government have become dangerously dysfunctional The forces which have bedeviled us as people and citizens have corroded the quality and democratic nature of our government We have been dangerously drifting quite far from Lincoln s ideal our ideal of government of the people by the people and for the people The book is motivated by hope and by compassion The compassion is to grasp why people are so distressed to be able to feel what is driving Americans on all parts of the political spectrum to so much anger intolerance and fear The hope is twofold that despite the depths of our difficulties understanding can help us find our way and that if we adjust our ideas and adopt better policies we can redeem the American dream _____

From Kirkus Review Insightful study of America offering a blueprint for change A coup presenting a critical but fair evaluation of American society from evangelicals to liberals Lemberg has produced a book that may appeal to both sides He dissects our dystopia into three core ideas secular materialism extreme individualism and free market ideology and offers hope by actions that require enlightened thinking Informative and dire but hopeful it will open minds and very likely change some American Government and Politics Today, 2005-2006 James Perkins, 2004-12 Presents a comprehensive textbook for undergraduate students on the constitutional governmental political social and

economic structures and processes **Impeach the President** Dennis Loo, Peter Phillips, 2011-01-04 This brilliantly argued and wonderfully written collection by twenty two of the best political analysts in the US analyzes the extraordinary and unprecedented threat the White House and its allies present to civil liberties civil rights the Constitution international law and the future of the planet Impeach the President unearths the stories behind election fraud in 2000 and 2004 the overt lies used to justify pre emptive war on Iraq the extensive ongoing commission of war crimes and torture the tragic failures in the lead up to and aftermath of Hurricane Katrina and lesser known but equally alarming offences of propaganda and disinformation illegal spying environmental destruction and the violation of the separation of church and state Loo and Phillips chillingly reveal the full threat behind the radical right wing force that has taken over the world s most powerful office *American Government and Politics Today* Steffen W. Schmidt, Mack C. Shelley, Barbara A. Bardes, 1989 A standard textbook on the basic concepts and institutions of American government Chapters include discussions of federalism civil liberties civil rights political socialization and the media interest groups and political parties elections and voting behavior the structures of the institutions of government and domestic and foreign policymaking Annotation copyrighted by Book News Inc Portland OR *California Government and Politics Today* Charles P. Sohner, 1984 *Study Guide 1* DCCCD Staff, Dcccd, 1995-11 *Politics Latin America* Gavin O'Toole, 2014-05-12 This is a volume which will become invaluable to those attempting to guide the neophyte through the maze of politics in Latin America Journal of Latin American Studies *Politics Latin America* examines the role of Latin America in the world and its importance to the study of politics with particular emphasis on the institutions and processes that exist to guarantee democracy and the forces that threaten to compromise it Now in its second edition and fully revised to reflect recent developments in the region *Politics Latin America* provides students and teachers with an accessible overview of the region s unique political and economic landscape covering every aspect of governance in its 21 countries The book examines the international relations of Latin American states as they seek to carve out a role in an increasingly globalised world and will be an ideal introduction for undergraduate courses in Latin American politics and comparative politics **The Coming of the American Behemoth** Michael Joseph Roberto, 2018-10-22 A primer on the history of American fascism Most people in the United States have been trained to recognize fascism in movements such as Germany s Third Reich or Italy s National Fascist Party where charismatic demagogues manipulate incensed vengeful masses We rarely think of fascism as linked to the essence of monopoly finance capitalism operating under the guise of American free enterprise But as Michael Joseph Roberto argues this is exactly where fascism s embryonic forms began gestating in the United States during the so called prosperous 1920s and the Great Depression of the following decade Drawing from a range of authors who wrote during the 1930s and early 1940s Roberto examines how the driving force of American fascism comes not from reactionary movements below but from the top namely Big Business and the power of finance capital More subtle than its earlier European counterparts writes Roberto fascist

America's racist top down quashing of individual liberties masqueraded as real democracy upholding the Constitution and the pressure to be 100 Percent American The Coming of the American Behemoth is intended as a primer to forge much needed discourse on the nature of fascism and its particular forms within the United States The book focuses on the role of the capital labor relationship during the period between the two World Wars when the United States became the epicenter of the world capitalist system Concentrating on specific processes which he characterizes as terrorist and non terrorist alike Roberto argues that the interwar period was a fertile time for the incubation of a protean more salable form of tyranny a fascist behemoth in the making whose emergence has been ignored or dismissed by mainstream historians This book is a necessity for anyone who fears America tipping ever closer in this era of Trump to full blown fascism **Telecourse Guide for Government by Consent** Dcccd & Lee, Sue Lee, Dcccd Lee, 1997-07 **Wounded Tigris** Leon McCarron, 2023-11-07 A fascinating journey down the Tigris River the lifeblood of human civilization in search of history and hope Starting at the source of this storied river where ancient Mesopotamians and Assyrian kings had their images carved into stone explorer Leon McCarron and his small team will journey through the Turkish mountains across north east Syria and into the heart of Iraq Along the way they will pass through historic cities like Diyarbakir Mosul and Baghdad We will meet fishermen and farmers along with artists activists and archaeologists who rely on the flow of the river Occasionally harassed by militias often helped by soldiers McCarron rode his luck in areas still troubled by ISIS and relied on the generosity of a network of strangers as he follows the river to its end in the Persian Gulf For readers of Simon Winchester Erika Fatland and Kevin Fedarko Wounded Tigris is the story of what humanity stands to lose with the death of a great river and what can be done to try to save it **Utah Politics and Government** Adam R. Brown, 2018-08-01 Utah Politics and Government covers Utah's religious heritage and territorial history its central political institutions and its political culture while situating Utah within the broader American political setting **Islam, Secularism, and Liberal Democracy** Nader Hashemi, 2009-04-08 Islam's relationship to liberal democratic politics has emerged as one of the most pressing and contentious issues in international affairs In Islam Secularism and Liberal Democracy Nader Hashemi challenges the widely held belief among social scientists that religious politics and liberal democratic development are structurally incompatible This book argues for a rethinking of democratic theory so that it incorporates the variable of religion in the development of liberal democracy In the process it proves that an indigenous theory of Muslim secularism is not only possible but is a necessary requirement for the advancement of liberal democracy in Muslim societies **The Routledge Handbook of Heritage and Gender** Jenna C. Ashton, 2025-05-30 The Routledge Handbook of Heritage and Gender offers an exceptional range of international contributions that interrogate and analyse the interactions within and between heritage and gender Taking an intersectional and global approach the Handbook opens up space for a more critical and situated consideration of how gender comes into contact with heritage as a concept and practice The volume considers heritage in the broadest sense as a concept
