Asian/American Curricular Epistemicide Nicholas D. Hartlep, Daniel P. Scott, 2016-08-18 In this important book Nicholas Hartlep and Daniel Scott's detailed analyses on both visual and historical representations of Asian Americans in textbooks and teacher manuals used in our elementary and secondary schools poignantly tell us that generations of children are growing up being fed this single story about Asian Americans As Hartlep and Scott write Asian Americans have once again been constructed as the good minority that can succeed on their own and be used as a political instrument to shame the Blacks for their underachievement and their fight for equality Over and over again the media has been telling a single story about Asian Americans to the public for the past fifty years The consequence of this fabricated story is that it discourages others even Asian Americans themselves from believing in the validity of their struggles Linshi 2014 p 1

Business as Usual: An Assessment of Donald Rumsfeld's Transformation Vision and Transformation's Prospects for the Future Mark G. Czelusta, 2010-11 Donald Rumsfeld's vision of a transformed U S military has been discussed by many and understood by few and this lack of understanding has resulted in both significant simplifications and sweeping generalizations If Rumsfeld's Transformation is indeed dead does this mean that Transformation as a greater process is dead as well This report discusses the answers to this question which requires one to

understand first that Rumsfeld's Transformation Vision RTV is the result of multiple influences that predate his time in office. Second RTV is actually an umbrella term for 3 different things: a new way of war, a process, and a defense strategy. And third, the military services shaped and at times limited the effectiveness of his program. Illus The Breakthrough Gwen Ifill, 2009-01-20. In *The Breakthrough*, veteran journalist Gwen Ifill surveys the American political landscape, shedding new light on the impact of Barack Obama's stunning presidential victory and introducing the emerging young African American politicians forging a bold new path to political power. Ifill argues that the Black political structure formed during the Civil Rights movement is giving way to a generation of men and women who are the direct beneficiaries of the struggles of the 1960s. She offers incisive, detailed profiles of such prominent leaders as Newark Mayor Cory Booker, Massachusetts Governor Deval Patrick, and U.S. Congressman Artur Davis of Alabama, all interviewed for this book, and also covers numerous up and coming figures from across the nation. Drawing on exclusive interviews with power brokers such as President Obama, former Secretary of State Colin Powell, Vernon Jordan, the Reverend Jesse Jackson, his son Congressman Jesse Jackson Jr., and many others, as well as her own razor-sharp observations and analysis of such issues as generational conflict, the race/gender clash, and the black enough conundrum, Ifill shows why this is a pivotal moment in American history. *The Breakthrough* is a remarkable look at contemporary politics and an essential foundation for understanding the future of American democracy in the age of Obama. *The Liberals' Moment* Bruce Miroff, 2007. Revisits the largely forgotten story of how the McGovern campaign represented the zenith of sixties style liberalism and how its historic defeat still haunts Democrats to this day, and in the process identifies what Democrats must do before they can reassume their role as agents of progressive change.
