field and other unique contributions it shares a multifaceted examination of this field of practice *Combat Ready? The Eighth U.S. Army on the Eve of the Korean War* Thomas E. Hanson, 2010 Historians and sliders have not been kind to either General Douglas MacArthur or the soldiers whom he placed in harm's way in the summer of 1950 This study seeks to redress the imbalance that exists between fact and interpretation For too long historians and soldiers have roundly criticized Task Force Smith's performance extrapolated from its fate a set of assumptions about what constitutes readiness and then used those assumptions to condemn the entire Eighth Army The reality is much more complex A proper examination of the historical record reveals wide disparities in the readiness and combat effectiveness of the subordinate units of America's first forward deployed Cold War field force This work will demonstrate how units achieved that readiness by means of case studies of four infantry regiments one from each of the four infantry divisions that constituted the Eighth Army in 1950 It synthesizes contemporary training doctrine training records generated by maneuver units unit histories reports of inspections by outside agencies contemporary self assessments and the observations of veterans who served in Japan in the fifteen months before the outbreak of the Korean War It challenges the long standing reputation of the Eighth Army as flabby dispirited and weak Introduction *Diamonds in the Rough* James Sanders Day, 2013-06-24 *Diamonds in the Rough* reconstructs the historical moment that defined the Cahaba Coal Field a mineral rich area that stretches across sixty seven miles and four counties of central Alabama Combining existing written sources with oral accounts and personal recollections James Sanders Day's *Diamonds in the Rough* describes the numerous coal operations in this region later overshadowed by the rise of the Birmingham district and the larger Warrior Field to the north Many of the capitalists are the same Truman H Aldrich Henry F DeBardeleben and James W Sloss among others however the plethora of small independent enterprises properties of the coal itself and technological considerations distinguish the Cahaba from other Alabama coal fields Relatively short lived the Cahaba coal mining operation spanned from discovery in the 1840s through development boom and finally bust in the mid 1950s Day considers the chronological discovery mapping mining and marketing of the field's coal as well as the issues of convict leasing town development welfare capitalism and unionism weaving it all into a rich tapestry At the heart of the story are the diverse people who lived and worked in the district whether operator or miner management or labor union or nonunion white or black immigrant or native who left a legacy for posterity now captured in *Diamonds in the Rough* Largely obscured today by pine trees and kudzu the mining districts of the Cahaba Coal Field forever influenced the lives of countless individuals and families and ultimately contributed to the whole fabric of the state of Alabama Winner of the 2014 Clinton Jackson Coley Award for Best Work on Alabama Local History from the Alabama Historical Association

Forgotten Veterans, Invisible Memorials Allison S. Finkelstein, 2021-08-10 Investigates the groundbreaking role American women played in commemorating those who served and sacrificed in World War I In *Forgotten Veterans Invisible Memorials* How American Women Commemorated the Great War 1917-1945 Allison S Finkelstein argues that American

women activists considered their own community service and veteran advocacy to be forms of commemoration just as significant and effective as other more traditional forms of commemoration such as memorials Finkelstein employs the term veteranism to describe these women s overarching philosophy that supporting aiding and caring for those who served needed to be a chief concern of American citizens civic groups and the government in the war s aftermath However these women did not express their views solely through their support for veterans of a military service narrowly defined as a group predominantly composed of men and just a few women Rather they defined anyone who served or sacrificed during the war including women like themselves as veterans These women veteranists believed that memorialization projects that centered on the people who served and sacrificed was the most appropriate type of postwar commemoration They passionately advocated for memorials that could help living veterans and the families of deceased service members at a time when postwar monument construction surged at home and abroad Finkelstein argues that by rejecting or adapting traditional monuments or by embracing aspects of the living memorial building movement female veteranists placed the plight of all veterans at the center of their commemoration efforts Their projects included diverse acts of service and advocacy on behalf of people they considered veterans and their families as they pushed to infuse American memorial traditions with their philosophy In doing so these women pioneered a relatively new form of commemoration that impacted American practices of remembrance encouraging Americans to rethink their approach and provided new definitions of what constitutes a memorial In the process they shifted the course of American practices even though their memorialization methods did not achieve the widespread acceptance they had hoped it would Meticulously researched *Forgotten Veterans Invisible Memorials* utilizes little studied sources and reinterprets more familiar ones In addition to the words and records of the women themselves Finkelstein analyzes cultural landscapes and ephemeral projects to reconstruct the evidence of their influence Readers will come away with a better understanding of how American women supported the military from outside its ranks before they could fully serve from within principally through action based methods of commemoration that remain all the more relevant today

The American Experience in World War II: The atomic bomb in history and memory Walter L. Schmiesing, 2014-01-30 Stories about the past shape not only the way people think about history but also the way they act in the present. Nowhere is this truer than in the area of religion which has been and continues to be a powerful motivating force in the lives of billions around the globe. In this volume *Catholicism and Historical Narrative: A Catholic Engagement with Historical Scholarship* contributors explore the way stories are constructed and show how a focus on Catholic figures and concerns challenges common understandings of important historical episodes and eras. Editor Kevin Schmiesing has gathered a distinguished group of scholars who in various ways call into question conventional story lines by highlighting previously neglected Catholic ideas and individuals. Built on ample evidence and employing keen insight, each essay is the result of cutting edge research in fields ranging from historical research on Puritan New England and the antebellum South to the history of abortion to the twentieth century papacy. Students and scholars of religious history, Catholic historians, and anyone interested in the intersection of religion and history will all find here much to interest and maybe even surprise in the chapters' arguments concerning the deficiencies of history's dominant narratives. The volume's focus on the history of Catholics in the United States makes it essential reading for anyone seeking to understand the place of Catholicism in the American story.
