This is the 3rd edition of the world acclaimed *The American Accent Guide*. The *American Accent Guide* provides comprehensive training on the standard American accent. The materials for this program consist of a book and accompanying streaming audio. The book provides a link and an access code for the audio, which can then be streamed on any digital device. The methods and principles of this program are based on the belief that an efficient way to become a clear and effective speaker in a non-native language is to gain an understanding of the phonology sound system of that language. The *American Accent Guide* addresses the entire sound system of American English and gives thorough attention to each of its elements. These elements are Intonation, Stress, Rhythm, Individual vowel sounds, Individual consonant sounds. The program found in *The American Accent Guide* addresses each of these elements through a variety of engaging interactive exercises that use everyday language in situations ranging from casual to technical and from informal to professional. The *American Accent Guide* is divided into eight sections, each of which contains its own numbering sequence and audio. Each section addresses a complete and distinct aspect of the American accent so the student can potentially study each part independently. Although each section is complete in and of itself, exercises do reinforce skills addressed in previous sections. This makes studying the program in the order presented the most effective way to both understand the concepts and practice and improve one's accent. By the end of the course, learners will possess a clear idea of how to process the American accent and have the basic speaking tools required to express it. They will also be prepared to continue building their accent skills through purposeful listening to the way that native speakers of American English communicate.

Who is *The American Accent Guide* for? Typical users of *The American Accent Guide* include universities, colleges, language schools, speech language pathologists, ESL instructors, and individual learners.
