

American Dream

Many people like to come to the USA, and many of them come here to study further in their field, while others come here to find better opportunities for their careers. For many years, the United States of America has been the first choice for immigrants. Like some people, my family and I immigrated here to get a better education and a better job for my sister. As I said before, people choose the USA not only for these two reasons but also for many economic reasons that they might have in their country or because of the ongoing war. All the people who immigrate here or to another country have some sort of dream that they want to achieve in their life. Furthermore, that same dream is what my mother wants to achieve. For us, it is to receive a good education, a better life, and better health services.

Firstly, we migrated here is a better education. Even though education in India is marvelous. Education in the USA is preferred. Many friends of mine told me that after finishing college, they have a problem getting a job in their respective fields. My friend, Deep, told me that finding a job in the engineering field is very difficult to find. The cause of this is because the studies they have done were nothing compared to their in-field experience, almost all companies ask for experience, but without getting a job after finishing their studies, how are they going to get the experience if nobody gives them a job? It was not a problem for me because I finished my education, and the next month my family and I moved here to the USA. My sister has completed her master's in computer applications in India, yet the outcome is that she had a problem finding a job in her field. However, we came here, and in a few months, we both found jobs easily. It was not in our respective fields, but we at least found a job. My uncle, who has been here in the United States of America for more than 20 years, told me that after I finish my studies here, I will have better job opportunities, not just here but anywhere I go. He told me that the education system in the USA is quite famous around the world, among all the American dreams, I guess getting a better education is the most important one for me.

Secondly, we have a better life than what we had in India. I remember clearly that my parents didn't have that much money to put us in a good school because they didn't even finish high school and they got married. Therefore, they have to work but without getting much income. So, they

100 Years of the American Dream Michael Kearney, 2022-09-26 This collection offers examinations of the concept of the American Dream across a broad and diverse range of works. The analytical methods utilized by the authors, who are all clearly extremely knowledgeable experts in their fields, are as unique as the content they examine. Each chapter offers innovative insights which, while founded on literary critique, transcend the field of literature and touch upon issues related to economics, education, gender, immigration, psychology, race, and religion to name but a few.

Uncommon Arguments on Common: Topics Essays on Political Economy and Diplomacy Clark Johnson, 2022-06-28 Much of the credit for this open access book should go to Bilal Kargi, the Editor of KSP Journals and KSP Books. KSP Journals has published several of my articles on economics and diplomatic history, including in the Journal of Economics Library, the Journal of Economics and Political Economy, the Journal of Social and Administrative Sciences, and the Journal of Economic and Social Thought. Bilal asked me in late summer 2021 if I would put these articles and others that had appeared elsewhere or that I might want to publish for the first time into a collection. I told him I would consider it, noting that past articles would need revisions if they were to appear again and to have a longer shelf life. I heard back from him within a day or two, advising me that he was waiting impatiently for my Word updates. The collection here also includes *A Different Cold War: The European Settlement of 1963 and Aftermath* and *Inflation Policy 2022 Background*, both of which I have prepared during the last few months.

Radical Visions and American Dreams Richard H. Pells, 1973 The Great Depression of the 1930s was more than an economic catastrophe to many American writers and artists. Attracted to Marxist ideals, they interpreted the crisis as a symptom of a deeper spiritual malaise that reflected the dehumanizing effects of capitalism, and they advocated more sweeping social changes than those enacted under the New Deal. In *Radical Visions and American Dreams*, Richard Pells discusses the work of Lewis Mumford, John Dewey, Reinhold Niebuhr, Edmund Wilson, and Orson Welles, among others. He analyzes developments in liberal reform, radical social criticism, literature, the theater, and mass culture, and especially the impact of Hollywood on depression-era America. By placing cultural developments against the background of the New Deal, the influence of the American Communist Party, and the coming of World War II, Pells explains how these artists and intellectuals wanted to transform American society yet why they wound up defending the American Dream. A new preface enhances this classic work of American cultural history.
