

# The Coming Crisis In American Higher Education<sup>62</sup>

Higher education in America, during the 21<sup>st</sup> century, will face significant hurdles. It will result in most feeder private high schools and also land grant colleges disappearing. Unbeknownst to most Americans, many private liberal arts colleges will also fold. Only the state university systems will have the resources to build the technological infrastructure necessary to be competitive on a global scale. Moreover, most land grant colleges will be hobbled by excess dilapidated plant and many will be forced to consolidate campuses or close down.

But more importantly, the post-war system of "financial aid"<sup>63</sup>, "need blind" admissions<sup>64</sup>, standardized testing-based social planning<sup>65</sup>, and graduate studies<sup>66</sup> in the United States will completely disappear by 2031 when Russia, India, and China get fully integrated into the world economy. The process has already started.

The reduction in Asian and Arab student visas has drastically affected the tuition that state universities charge. Asian and Arab minorities are primarily utilized to lift the grade point averages published in statistical surveys. In addition, many of

American Higher Education in Crisis? Goldie Blumenstyk, 2014-09-15 A timely primer on the current embattled state of American higher education this book guides readers through the forces and trends that have brought the education system to this point and highlights some of the ways they will reshape America's colleges in the years to come *In Defense of American Higher Education* Philip G. Altbach, Patricia J. Gumpert, D. Bruce Johnstone, 2003-04-30 The current era in higher education is characterized by increased need for accountability and fiscal constraint coupled with demands for increased productivity Higher education is expected to meet the demand of changing student demographics as well as requests for research and service from government and industry To preserve the academy's ability to meet these demands the editors and contributors to this volume argue that while change is inevitable and desirable any radical alterations to the practices that have established and upheld the excellence of higher education in the United States must be carefully considered The editors and contributors cherish the best ideals of higher education academic freedom commitment to both inquiry and teaching and preservation of an independence of mind and spirit in the face of external pressures At the same time the authors of these essays also reflect upon the failings of higher education including problematic historical legacies such as racism sexism and anti-Semitism *In Defense of American Higher Education* is a careful analysis of what we have inherited undertaken with a critical eye for constructive reform It will be of interest to anyone concerned about the future of American higher education

**Bridging the Gap between the Abundance of American Higher Education Talent and the Immense Foreign Demand for It** Richard J. Joseph, 2022-11-03 The gap between the abundance of American higher education talent and the immense foreign demand for it is the great chasm in global education It is a gulf of lost opportunities It is also a space of great economic potential This book describes the great chasm examines factors underlying it and suggests ways to bridge the gap to realize this potential The abundance of talent stems from the slackening growth of the U S higher education sector in the New Millennium Contributing to the slowdown are flat enrollments adverse demographic trends U S visa restrictions and intensifying competition The immense foreign demand has been fueled by the secular expansion of the global economy It has been shaped by the pressing need in emerging markets to develop an educated workforce The great chasm creates an opportunity for American academic institutions to extend their global reach Bridging the gap however is not an easy feat for most U S colleges and universities It is complicated by an institutional culture that is averse to commercialization an organizational structure that is operationally slow and a governance system that often leads to indecision conflict and paralysis Bridging the gap requires fundamental changes in the culture organization and governance of traditional U S academic institutions These changes will pave the way for international expansion which could enhance the financial well being of these institutions the social well being of less developed nations and the critical role that America plays globally in knowledge creation the dissemination of ideas and the pursuit of the truth
