

Analysis of a Squirrel Gene Pool

Suppose that, after observing that a certain population of squirrels varied only slightly between 1975 and 1995, you decided to make careful studies between 1995 and 2000. In the meantime, there occurred the following: an earthquake which caused the habitat to be split into two separated areas where movement of the squirrels was not possible, a fire destroyed the entire habitat where the study had been conducted, and the entire habitat was destroyed by a flood. The population of squirrels in the habitat was reduced to 10% of the original population. The population of squirrels in the habitat was reduced to 10% of the original population. The population of squirrels in the habitat was reduced to 10% of the original population.

Suppose that you had observed that the population of squirrels was reduced to 10% of the original population.
