Afterwards... it will be life." It is Life that decides if Youth and Love had indeed succeeded. It is the outcome of Youth and Life that dictates the way of life. Villa had repeatedly emphasized the interconnection of Youth, Love and Life as a cyclical occurrence. They are the

The book addresses the five SEL competencies identified by the Collaborative for Academic, Social, and Emotional Learning (CASEL): self awareness, self management, social awareness, relationship skills, and responsible decision making, and explains how teaching students to develop their abilities in these areas can help them improve their learning and assessment experiences. Sackstein also raises important considerations for educators, urging them to: Examine their implicit biases to improve their relationships with students; Deepen their understanding of the impact of grades and assessments on students' self image and their ability to reach their full potential as learners; Develop personalized assessment systems that ensure an accurate, fair, and equitable portrayal of what students know and can do. In addition to presenting the relevant research, Sackstein draws from personal experience and the reflections of students, teachers, and administrators to present a compelling case for approaching assessment through the SEL lens. Educators at all levels who have witnessed the devastating

effects that testing can have on students beliefs in themselves as learners will find *Assessing with Respect* to be an invaluable guide to ensuring better outcomes and better emotional health for all students Energy Research Abstracts ,1991
