Teaching Elementary Grammar with Mentor Texts

Sean Runday, 2025-09-22 Teaching Elementary Grammar with Mentor Texts Ready to Use Lesson Plans for Grades 3-5 contains detailed grammar lesson plans for teachers in grades three, four, and five. The lesson plans in this book incorporate the research-based best practices of grammar instruction and apply those practices to the teaching and learning of grammar instruction. They present grammatical concepts in the context of effective writing by using mentor texts. These mentor text examples, which students read from a writer's perspective, deepen students' metacognition of the importance of grammatical concepts and help them see the elements of grammar as tools for strong writing that authors use strategically to make their work as strong as possible. The book provides elementary school teachers with user-friendly lesson plans that they can easily use to put mentor text-based grammar instruction into action in their classrooms. These lesson plans feature published examples of grammatical concepts from contemporary children's and middle-grade books, activities that help students connect their reading and writing experiences, and reflective activities that facilitate students' metacognition of the importance of grammatical concepts. The thorough plans in this book will help teachers put the best practices of grammar instruction into action in concrete, practitioner-oriented ways. These programs have redefined teaching practices and thrust diversity into the spotlight as a central concern. This book delves into the multifaceted realm of attention to diversity in education where the focus is on tailoring teaching methods to the specific needs of students encompassing differences in abilities, learning paces, and styles, which empowers students to acquire essential competencies and attain educational objectives at each stage of their academic journey. Secondly, it traverses the landscape of bilingual and plurilingual education, which has emerged in response to the societal employment and economic demands for language proficiency beyond one's mother tongue. This book is essential reading for many educational stakeholders engaged in bilingual or plurilingual education. Teachers at every educational level, along with teacher trainers at tertiary institutions, will find valuable insights for tailoring their pedagogical approaches to the unique needs of their students.
