Interactions at Science Centers and Museums Eva Davidsson, Anders Jakobsson, 2012-03-24 There is an increasing
interest in understanding learning and knowledge development when visitors attend informal institutions such as museums
science centers aquariums and botanical gardens But in what ways do visitors develop new knowledge skills and awareness
about displayed issues in these kinds of settings and how does the exhibition environment affect and scaffold learning
processes In this book the authors turn their attention to visitors and staff members actions and dialogues during the visits in
order to identify and study learning situations A common approach is the use and development of socio cultural and cultural
historical frameworks and theories as means for coming closer to the significance of interactions at different levels and in
different contexts The individual chapters cover learning interactions in relation to staff members roles and identities family
