Children have plenty of questions about reproduction and babies and about sex and sexuality too. *It's So Amazing* provides the answers with fun, accurate, comic book style artwork and a clear, lively text that reflects the interests of children age seven and up in how things work while giving them a healthy understanding of their bodies. Created by the author and illustrator of *It's Perfectly Normal*, this forthright and funny book has been newly updated for its fifteenth anniversary.

Getting the Climate Science Facts Right Medani P. Bhandari, 2022-09-01. Getting the Climate Science Facts Right discusses climate change science with reference to the Intergovernmental Panel on Climate Change (IPCC). Addressing climate change is the most important public priority of the 21st Century. Unlike many issues, however, this issue is being driven by both science and its interface with politics. The main institution for bridging this division between science and international politics is the IPCC. As such, it is the main source of the facts from which climate change policy is developed. This book describes the ways in which the IPCC arrives at these facts and so can be sure they are complete and evidence based. Seldom in history has science had such a direct relationship with politics. The negotiation of an international policy regime requires, at its outset, an agreement on the facts. In this case, the facts are scientific, complex, and contentious. Governments have recognized this and have, by using the IPCC, set up institutional machinery to provide facts from a source and in a manner that they can accept. The way in which the IPCC functions is unique in that it melds the way in which science achieves consensus with the way governments do at the international level. Starting with a process to examine, review, and debate scientific findings leading to a consensus about scientific fact, usually expressed as probabilities that the findings will hold over time, the IPCC then concludes by using the kind of consensus development mechanism that the United Nations typically uses to achieve agreements leading to the formation of policy regimes. The book examines the structure of the IPCC, its composition, and its procedures in order to achieve an understanding of its role and future.

From Science Fiction to Science Facts C. B. Don, 2005-07. FROM SCIENCE FICTION TO SCIENCE FACTS is the non-fiction companion study guide to the fantastic science fiction novel *Accused By Facet Eyes*. It is a unique teaching/learning approach which pairs literary entertainment with fascinating life science facts. Academic enrichment for nature-loving readers, middle high school and college students. Intended for mainstream, supplementary, and home schooling education. Readers will learn why honeybees are endangered worldwide, their pivotal role in pollination, and will better appreciate the essential mutual interdependence with humankind. Eye-opening life science facts point out important interactions of biology, chemistry, and physics with contemporary issues in ecology and human-induced environmental hazards from a global social perspective.

experiences through the aforementioned imaginative approaches is also discussed. Each chapter provides an in depth discussion of the theoretical background of a specific imaginative approach e.g. storytelling, wonder, full science reviews the existing empirical evidence regarding its role in the learning process and points out its implications for pedagogy and instructional practices. Examples from physical science illustrating its implementation in the classroom are also discussed. In distinguishing between participation in a science activity and engagement with science ideas per se, the book emphasizes the central role of imaginative engagement with science content knowledge and thus the potential of the recommended imaginative approaches to attract students to the world of science.

Jesus "The Way, The Truth and The Life" ThD Bish, 2010-12. Jesus The Way The Truth and The Life will prove that Jesus is the only Way to God, the very embodiment of all Truth and the very essence of Life just as He declared of Himself in the fourteenth chapter and sixth verse of the gospel of John by saying I am the way, the truth and the life and that no one comes to the Father except through Me. This book will show using systematic theology proofs and truth arguments that Jesus is exactly who He says He is, confirmed by God the Father, the Holy Spirit and by Christ Himself. Jesus said in Mark 8:27 of scripture: "Who do you say I Am?" This book will make it obvious why you must answer this pointed question just as Peter did in claiming to Jesus that "You are the Christ, the Son of the Living God." Time is getting short and Jesus is on His way back to earth. It's not a time to be confused or wrong on issues having eternal consequences. Though the book reads as a college textbook, it forces you to think and study the word of God. The book is most valuable in a curriculum setting or for those interested in Christian apologetics. Jesus is compared to a myriad of other secular philosophies both past and present and as a result it is conclusively obvious that Jesus is the way, truth and the life and all others are false. This book stands on the foundation that a relationship with God thru Christ is by faith alone Sola Fide, by grace alone Sola Gratia, by Christ alone Solus Christus, by scripture alone Sola Scriptura and with glory to God alone Soli Deo Gloria. Dr. Ronald N. Bish ThD received his Doctorate from Freedom Bible College in Systematic Theology and Apologetics and also holds a Master Degree in Mechanical Engineering. Modern Science in the Bible Ben Hobrink, 2011-02-08. Modern Science in the Bible shows that the Bible is not out of date but that it was in fact thousands of years ahead of science when it was written. Used as a reference tool or merely to underline the trustworthiness of the Bible, this book succinctly demonstrates hard scientific facts from the Bible that modern science has only recently discovered. Ben Hobrink, although a biologist, writes in layman's terms to describe current scientific debates and shows where scientific theories or conclusions differ from the Bible and offers explanations of the alleged differences. In *Modern Science in the Bible*, Hobrink not only defends the Bible, he lets others share his astonishment about the relevance of biblical rules. The book underlines the reliability of the Bible in the field of science and presents hard scientific facts that are structured around themes such as combating epidemics, hygiene, nutrition and evolution.

DNA Witnessed God's Creation Victor W Chang , Guoping Song,2020-07-04 Who are we Where are we from These questions have troubled people for centuries Textbooks have long taught us that humans evolved from apes Today a new science Molecular Anthropology tells us that nearly 7 billion humans in the world share a common grand grand father the Y chromosome Adam And they also share a common grand grand mother the Mitochondrial Eve The difference in DNA coding is only one thousandth between any persons in the world After reading this book you will be convinced that humans could not have been the result of Evolution In 1987 Professor Allan Wilson s research team at UC Berkeley proposed the Mitochondrial Eve Theory by DNA coding that all humans originated from one woman who lived about 200 000 years ago In 1995 Drs Dorit et proposed the Adam Theory by DNA coding of Y Chromosomal that all humans originated from one man There are two kinds of DNA encoding in our body chromosomal DNA and mitochondrial DNA The chromosome consists of three types autosome Y chromosome and X chromosome The Eve Theory is founded on the mitochondrial DNA while the Adam Theory is founded on the Y chromosome So what can we see from the autosome The simple biological fact that there are no differences between the autosomes of male and female tells us a striking truth that is the autosome of all men in the world must come from only one original version and cannot be produced randomly Therefore the authors of this book have established a The only one Adam theory by the consistency of autosomal DNA coding of men and women All human beings on earth came from him and the earliest female ancestor came from this male ancestor In addition we also provide you with an answer which science cannot offer Creationism

[The Spiritual Enlightenment of an Engineer](#) Martin K. Ettington, I ve written quite a few books about spirituality and my experiences and beliefs in our abilities to expand our consciousness through spiritual development practices meditation and the paranormal This book includes my experiences with paranormal abilities acquired from the spiritual development process and different enlightenment experiences Having been raised in a technical family and gone to engineering school my perspective is pretty unique since I developed both traditional technical knowledge of the world while I was also going through the spiritual development and enlightenment process There are many engineers and scientists who are also religious

but I've found that technical people who are as deeply into spiritual enlightenment practices and paranormal experiences are pretty rare. What I've found is that this dual background has given me more clarity about the world we live in and better objectivity in many cases regarding strange or unusual phenomena. The theme of this book is to review how I went through this dual track system of learning in my life to become both a traditional engineer and to have fairly adept knowledge of spiritual and paranormal experiences.

Radionics and Life Force Technologies Martin K. Ettington, Radionics is the term for machines which manipulate life forces. This is often for healing or increasing psychic perceptions. The Author is an engineer and has many decades of experience with the paranormal and well as time learning and experimenting with radionics devices from the 1970s. While radionics devices are often considered pseudoscience, those opinions don't take into account the sensitivities of individuals who have incredible paranormal and healing abilities. In my first year of engineering school at Rensselaer Polytechnic Institute in Troy New York, I met a man who became my mentor in the Paranormal and other things too. This was in 1973. I learned to meditate and how to open my crown chakra to take in vital forces which allowed me to do many things including healing others. In addition, I also met another middle aged guy at a Psychic Fair in Saratoga Springs New York. He was a researcher in the arcane field of Kirlian Photography. In this book, the history of radionics is discussed, some of the major influencers on that history, how these devices are used for healing and even some plans for building radionics devices. My hope is that this book will give you a good grounding in radionics to learn to use it productively for your own efforts.

Creating Your Own Reality Martin K. Ettington, There are a lot of books written on the topic of visualization. Mine is a little different. As an engineer and experiencer of many paranormal events, I've got a different perspective enabled by my research and experience. There are many subjects I've studied that indicate that the mind really can affect our reality. In this book, I will review why my research and experience says that visualization really works and some lessons on how to do it. The Reality we live in is much more malleable than we think and so why not set our goals and purposes to get that reality to work the way we want it. Techniques included in this book include various visualization techniques and building your own vision board.

The Real Atlantis-In the Eye of the Sahara Martin K. Ettington, There have been many books and movies about whether Atlantis really existed and where it was located. Now we have a new candidate location which meets the criteria established by Plato much better than any of the other candidates. A location which is the exact same size as the fabled city and is located by more than one ancient source. The story of the Eye of the Sahara is truly amazing and once you read it, you will become convinced like I am of this logically being the real location of the mythical city of Atlantis. There are even ancient maps which show the location of Atlantis to be in the area of this Eye of the Sahara. Lots of history and related information in this study of where Atlantis was really located.
