Cursed Masks Gabriel Barnes, AI, 2025-02-27 Cursed Masks explores the captivating intersection of history and spirituality through the lens of masks believed to harbor spiritual forces or bring misfortune Diving into cultural beliefs and folklore the book reveals how masks beyond their physical form have been perceived as conduits for the occult and concealed identity From ancient rituals to modern interpretations masks reflect humanity's enduring fascination with hidden realms and the darker aspects of the human psyche The book deconstructs the idea of inherent power in masks arguing that their perceived potency stems from deeply ingrained cultural beliefs and psychological projections It progresses systematically beginning with foundational concepts of mask symbolism across cultures then moves into case studies of masks associated with malevolent forces Finally it culminates in an analysis of the psychological underpinnings of these beliefs revealing how masks tap into primal fears and desires

Jungle-tastic Tales Helen Pugh, 2022-11-15 From the author of Inca tastic Tales comes a new collection of short stories

Jungle tastic Tales Are you brave enough to join Yacumama the Amazon s most humongous and powerful snake on a once in a lifetime trip to the Amazon Region in South America You are Fab Then grab your camera mosquito net and raincoat and LET S GO You re gonna travel through thousands of years of history and culture a lot of which not many grown ups know about For example did you know There were once huge cities in the Amazon rainforest The Amazon is home to millions of different species of animals and plants The first city in Peru to get electric street lights was in the Amazon Region A Premier League footballer grew up in the Ecuadorian Amazon If that s got your interest then jump in the canoe and we ll get started straight away We ll start with the Ice Age and go right the way through to modern times Oh and Yacumama promises not to bite you She ll be on her best behaviour Praise for The Mysterious Helpers really exciting a good yarn I believe everyone should read this beautiful story Ebony Mask / Ebony Gold Wallace B. Collins,2003-03-22 Years ago I met a friend in London I had not seen in many years He posed a very interesting question to me He wanted me to give him a statement on Jomo Kenyatta who was then incarcerated as the leader of the Mau Mau uprising in Kenya Though I did not have an answer for my friend I kept his question in my mind Then years later my wife and I decided to visit Kenya on Safari with friends which I recount here vividly in this book They were like two birds set free hoop the coop flew away from their prison abode caged for decades until Februrary 1990 on that sunny day in Capetown when I saw Nelson Mandella live on CNN Television with his wife Winnie Mandela They strolled through the gates of pollsmore Prison away from 37 years of incarceration by the Apartheid Regime That experience intrigued me enough that my wife and I decided with a group of friends to visit South Africa and see what would happen to us as a group of African Americans it was while there that I touched yellow Ebony Gold as detailed in my book *Wonders of Animal Life* Sir John Alexander Hammerton,2008 *The Death of Authentic Primitive Art* Shelly Errington,2023-09-01 In this lucid witty and forceful book Shelly Errington argues that Primitive Art was invented as a new type of art object at the beginning of the twentieth century but that now at the century s end it has died a double but contradictory death Authenticity and primitivism both attacked by cultural critics have died as concepts At the same time the penetration of nation states the tourist industry and transnational corporations into regions that formerly produced these artifacts has severely reduced supplies of primitive art bringing about a second death Errington argues that the construction of the primitive in the nineteenth and twentieth centuries and the kinds of objects chosen to exemplify it must be understood as a product of discourses of progress from the nineteenth century European narrative of technological progress to the twentieth century narrative of modernism to the late twentieth century narrative of the triumph of the free market In Part One she charts a provocative argument ranging through the worlds of museums art theorists mail order catalogs boutiques tourism and world events tracing a loosely historical account of the transformations of meanings of primitive art in this century In Part Two she explores an eclectic collection of public sites in Mexico and Indonesia a national museum of anthropology a cultural theme park an airport and a ninth century Buddhist monument newly refurbished to show how the

idea of the primitive can be used in the interests of promoting nationalism and economic development Errington's dissection of discourses about progress and primitivism in the contemporary world is both a lively introduction to anthropological studies of art institutions and a dramatic new contribution to the growing field of cultural studies **Masks of Identity**

Řemysl Mácha, José Eloy Gómez Pellón, 2014-06-02 This collection of essays offers some thoughts on alterity otherness in anthropological praxis viewed through the prism of the Latin American reality It is neither an exhaustive treatment of the problem of Otherness in anthropological theory nor a definitive analysis of the various forms of represented practiced and contested alterities in Latin American history Rather the authors have been brought together by several common concerns The first is an interest in exploring and understanding some of the ways in which Otherness structures social relations at the everyday as well as the national levels The second is a theoretical and methodological question of how the perspective which foregrounds the Other at the expense of the Self might make the anthropological inquiry more effective and emancipatory Thirdly the authors are interested in how they can as researchers teachers and citizens help overcome cleavages which group identities constantly produce in the body of humanity The Others that the authors of this book explore include indigenous peoples mestizos African slaves women insurgent peasants as well as hybrid groups re claiming a new identity While each of the eight authors focuses on social phenomena from different time periods and parts of Latin America they all share as their common denominator the Spanish colonization of the continent which set off a series of events whose consequences eventually exceeded the wildest fantasies of the boldest thinkers of these times The authors particularly focus on the visual representation and performance of alterity but also give room to some non visual ways in which Otherness is established and subverted Inevitably this volume presents a diverse selection of contributions which nevertheless share some common problems concerns and hopes which in their totality provide a complex picture of Otherness in everyday life in historical and contemporary Latin America The Book of Perception: Spiritually Proven El-Dumarè Asar ,2024-04-08
