Alitto, 2023-04-29 The book is a meticulous work in answering these questions which often occur to foreigners as well as modern Chinese themselves at the thought of the old China and its experience in modern times What is Chinese civilization How could it exist for several millennia and spread that far Is there anything inherent in this civilization From the standpoint of an outsider to this civilization the author incorporates various elements such as geographic factors language thoughts with the recurrent themes along the two thousand years and changes throughout rather than simply following a lineal progression His historiographical approach the methodology of eclectic common sense as he termed it is a new try in this field and will present a brand new perspective for both readers and researchers in that field      The Nation and Its Fragments Partha Chatterjee, 2020-05-05 In this book the prominent theorist Partha Chatterjee looks at the creative and powerful results of the nationalist imagination in Asia and Africa that are posited not on identity but on difference with the nationalism propagated

by the West Arguing that scholars have been mistaken in equating political nationalism with nationalism as such he shows how anticolonialist nationalists produced their own domain of sovereignty within colonial society well before beginning their political battle with the imperial power These nationalists divided their culture into material and spiritual domains and staked an early claim to the spiritual sphere represented by religion caste women and the family and peasants Chatterjee shows how middle class elites first imagined the nation into being in this spiritual dimension and then readied it for political contest all the while normalizing the aspirations of the various marginal groups that typify the spiritual sphere While Chatterjee s specific examples are drawn from Indian sources with a copious use of Bengali language materials the book is a contribution to the general theoretical discussion on nationalism and the modern state Examining the paradoxes involved with creating first a uniquely non Western nation in the spiritual sphere and then a universalist nation state in the material sphere the author finds that the search for a postcolonial modernity is necessarily linked with past struggles against modernity
