Ethics and Experiments Scott Desposato, 2015-12-22 For most of political science s history discussions about professional ethics had nothing to do with human subjects Professional ethics involved integrity in the classroom fair tenure and promotion rule and the careful avoidance of plagiarism As most research was observational there was little need for attention to how scholarly activities might directly affect the subjects of our work Times have changed The dramatic growth in the use of experiments in social science especially overseas is generating unexpected ethical controversies The purpose of this volume is to identify debate and propose practical solutions to the most critical of these new ethical issues A leading team of internationally distinguished political science scholars presents the first examination of the practical and ethical challenges of research with human subjects in social science and policy studies Part 1 examines contextual challenges provided by experiments conducted overseas questions of culture religion security and poverty Part 2 examines questions of legal constraints on research focusing on questions of foreign review of international experiments Part 3 tackles the critical issues in field experiments including deception and consent impact on elections and careers the boundaries of the public officials exemption and the use of partner organizations to avoid Institutional Review Body IRB review Part 4 considers strategies for the future including training and education IRB reform institutional changes and norm development

Tipping Point for Advanced Capitalism D.W. Livingstone, 2023-09-07T00:00:00Z Tipping Point for Advanced Capitalism is a pathbreaking study of the changing class makeup of the Canadian other G7 and Nordic labour forces since the 1980s documenting especially the rise of non managerial professional employees The book provides unprecedented tracking of the

links between employment classes and higher levels of class consciousness including the often hidden political consciousness of corporate capitalists as well as the extent of oppositional and revolutionary consciousness among non managerial workers The large differences exposed between class conscious capitalists and these non managerial workers on issues of poverty reduction and global warming reveal the strategic roles these key class agents play in actions to defend or transform advanced capitalism The most concerted evidence based study to bring class back into grasping the intimately linked ecological economic and political crises we now face

Teaching Innovations in Economics María del Carmen Valls Martínez, José-María Montero, 2024-10-31 This book highlights the latest technological innovations in economics education Economics as a discipline not only studies the relationship between ends and scarce means which can be used alternatively but also serves as a social science that uses historical data to predict future events a task complicated by the influence of human behavior In economics a solid theoretical foundation alone is insufficient practical application requires a deep understanding of statistics With the vast amount of information available today data processing is now performed using specialized software Consequently teaching economics demands a wide range of complex skills that have significantly evolved in recent years driven by the growing interest in educational innovation among professors and scientists further accelerated by advancements in new technologies Moreover economics education is increasingly aligned with the global concern for sustainability as emphasized in the United Nations Agenda 2030 Professors are now integrating sustainability into syllabi and teaching methodologies This book covers key topics such as Technological and innovative advancements in economics education New teaching learning theories and models in economics education The impact of digital transformation on economics education The role of artificial intelligence in economics education Addressing special educational needs in economics education Evaluation of the teaching learning process in economics Assessment of student learning in economics Development of materials and tools for economics education Final projects Undergraduate and Masters in economics Authored by leading professors and researchers in the field this book presents a collection of chapters that rigorously explore teaching innovations in economics

Borderless Africa Francis Mangeni, Andrew Mold, 2024-04-18 The African Continental Free Trade Area established in 2018 represented a monumental step forward for Africa in terms of meeting longstanding aspirations for greater economic and political integration But it has nonetheless been met with scepticism in some quarters both within the continent and beyond Borderless Africa makes the case for the AfCFTA in an accessible and compelling way without shying away from technical and academic debates Francis Mangeni and Andrew Mold take us on a journey through the different dimensions and implications of the AfCFTA the largest free trade zone in the world starting with its underlying economic rationale Pointing to the numerous historical examples of successful regional integration they argue that the African continent will need to take on board such lessons as the agreement is implemented They discuss too the more controversial elements of the AfCFTA including the freedom of movement protocol contending that

this should not be seen as an optional extra but as an intrinsic part of the accord Also exploring the role of external partners in the construction of an economically stronger more united Africa this fascinating study reveals how the AfCFTA is contributing to sustainable development across the continent **Banking on Equality** Supriti Bezbaruah,2015-03-24 It may well be surprising to say that the world should look to India as a model of gender equality India s banking sector proves the exception with several women reaching the highest positions in India s top banks including the country s largest bank Based on interviews and surveys of bank employees in India s National Capital Region this book looks at what lies behind the media rhetoric and provides a systematic analysis of patterns of and responses to gender inequality in the banking sector in India The book uncovers how gender discrimination still persists in the banking sector albeit in covert forms Through a comparison of nationalized Indian private and foreign banks the book demonstrates how the impact of laws local cultural norms and gendered workplace practices are mediated through different organizational forms in these different types of banks to create varied experiences of gender inequality The book is one of the first books to provide a thorough in depth analysis of women s employment in the Indian banking sector currently an under researched area
