

Learn: Write Inequalities

Read and think about how to write an inequality to represent a real-world problem.

Words

Describe the mathematics of the problem, use only the most important words, identify key words.

Variables

Define a variable to represent the unknown quantity.

Inequality

Translate the words into an algebraic inequality.

To write an inequality to represent a real-world problem, look for key words, such as at least (greater than or equal to), less than, less than or greater than.

Do-Check Read the situation to see how to write an inequality for the following scenario.

A person must be at least 18 years old to vote. Write an inequality to represent the possible ages of a voter.

Words

Describe the mathematics of the problem.

The age of a voter is greater than or equal to 18 years.

Variable

Define the variable.

Let x represent the age of a voter.

Inequality

Write an inequality.

$$x \geq 18$$

Pause and Reflect

Compare and contrast the equation $x = 18$ and the inequality $x \geq 18$. Why does the inequality represent the voter's age scenario and not the equation? Describe a scenario for which the equation might be the better representation.

Write an inequality to represent the following scenario. Explain your work.

Example 1 Write Inequalities

In some states, you must be at least 16 years old to have a driver's license.

Write an inequality to represent the age at which you can have a driver's license.

Words

Describe the mathematics of the problem.
In order to have a valid driver's license, your age must be at least 16.

Variable

Define the variable.

Let x represent the age to have a license.

Inequality

Write an inequality.

$$x \geq 16$$

So, the inequality $x \geq 16$ represents the situation.

Check

A certain hotel only permits dogs that weigh less than 50 pounds to stay with hotel guests. Write an inequality that can be used to represent the weight of dogs that are permitted to stay at the hotel.

Let w represent the weight of a dog. The inequality $w < 50$ represents the situation.

Do-Check You can compare and contrast these values.

Pause and Reflect

Refer to the Example and Check. Why do both of these situations represent inequalities and not equations? Explain your reasoning.

Write an inequality to represent the following scenario. Explain your work.

Check Your Understanding
What are the key words that will help you determine which inequality symbol to use?

Check Your Understanding
Explain why the inequality is $x \geq 16$ and not $x > 16$.

Reframing Police Education and Freedom in America Martin Alan Greenberg, Beth Allen Easterling, 2023-09-15 This book untangles the components of police education and advocates a robust community based training model with significant civilian oversight The recommended approach recognizes that the citizenry needs to be included in the provision of basic police education for it is they who must both support and be served by their police The police must be role models for society demonstrating that freedom and rights come with obligations both to the community as a whole and to individuals in need within that community Ultimately the quality of police training and the public s safety depend not only on the leadership of police executives as well as the quality of educational institutions and police candidates but also on the building of a community s trust in its police The issues of police recruitment education and retention have greater consequence in an era when protests and other signs of negativity surround law enforcement Several incidents including most notably George Floyd s murder by police have sparked new training initiatives regarding police de escalation and community engagement At the same time the proliferation of gun violence and a contentious political climate have led some officers to refrain from undertaking proactive types of policing In this context reform of the police education system is urgent This book examines police training at all levels of government

local regional state and federal In addition citizen participation programs including the role of the media and programs for furthering law related education LRE are highlighted The proposed police education model recognizes that ordinary members of the American public need to contribute to the provision of basic police education for it is they who must both support and be served by their police The focus is on teaching a guardian style of policing at the local level Police education would combine higher education necessary practical proficiencies and intensive field experiences through a gradual level of greater responsibility likely extending over a 2 plus year period for trainees with less than a year of previous college credits This book will be of interest to a wide range of audiences such as law enforcement professionals and trainers including those in executive development programs in police departments community leaders scholars and policy experts who specialize in policing concerned citizens and students of criminal justice especially those interested in police organization and management criminal justice policy and the historical development of police Alabama School Journal ,1922 *Theory, Method, Sustainability, and Conflict* Svanibor Pettan,Jeff Titon,2019-02-20 The nine ethnomusicologists who contributed to this volume balanced in age and gender and hailing from a diverse array of countries share the goal of stimulating further development in the field of ethnomusicology By theorizing applied ethnomusicology offering histories and detailing practical examples they explore the themes of peace and conflict studies ecology sustainability and the theoretical and methodological considerations that accompany them Theory Method Sustainability and Conflict is the first of three paperback volumes derived from the original Oxford Handbook of Applied Ethnomusicology which can be understood as an applied ethnomusicology project as a medium of getting to know the thoughts and experiences of global ethnomusicologists of enriching general knowledge and understanding about ethnomusicologies and applied ethnomusicologies in various parts of the world and of inspiring readers to put the accumulated knowledge understanding and skills into good use for the betterment of our world **Catalogue** University of Cincinnati,1947 Cuerpo de Maestros.
