Economic, Political and Legal Solutions to Critical Issues in Urban Education and Implications for Teacher Preparation Stephanie Thomas, Shanique J. Lee, Chance W. Lewis, 2022-06-01 The Montgomery bus boycott Student Nonviolent Coordinating Committee SNCC and Brown v Board of Education reveal incentives to reform as a result of economic political and legal threat It is difficult to change a person s heart or to change based on moral conviction alone However policies and laws can be established that will change a person s behavior Historically there was rarely a time where societal changes were the result of a desire to do what was morally right Doing what is right was contingent upon economic advantages political motivation or the threat of litigation By the mid 1900s the NAACP had learned a valuable lesson in the South that litigation or the threat of litigation was an effective tool in the quest for educational equality Douglas 1995 More recently the metoo movement and the Los Angeles teacher s strike exposed corrupt behavior and insufficient working environments that have existed for decades What is different They have been exposed through political economic and legal means As it pertains to educating African Americans there was an ongoing role of servitude in the political economy of the South Anderson 1988 This was subsequently disrupted through political economic and legal measures during Reconstruction Racist ideologies and economic advantages were seen through Jim Crow Laws Roback 1984 that were again disrupted through political economic and legal methods Education has also been cited as what perpetuates our democracy It is institutions that afford its citizens the skills and knowledge necessary for political participation Rury 2002 Even when legal cases are unsuccessful such as Puitt v Commissioners of Gaston County or Plessy v Ferguson they can forge the way to successful litigation dismantling racist ideologies that oppress African Americans Although the Puitt decision did not remove the processes of discrimination against Black schools it left intact the legal basis on segregated and unequal education Douglas 1995 As citizens it is imperative that we participate in the political process and use our authority to mandate the changes we would like to see in urban education When theorizing this book the intent was to provide an interdisciplinary look at solutions to critical issues in urban education through political economic and legal avenues This book seeks to provide an interdisciplinary approach to solving the issues in education while connecting it to the effects on teacher preparation Using historical and recent examples scholars can piece together solutions that will guide others to political economic and legal action necessary to dismantle systems that have bound Black and Brown children It is our intent to offer innovative yet grounded solutions that can purposefully move the conversation about solutions to critical issues in education to political economic and legal actions Social Science Theory Herbert Ira London, Frederick A.
