for their air show acts We also go six stories underground for a rare chilling visit to our nuclear command post But the real story is the history of Sierra Sue II and the remarkable pilots who flew and loved her from 1st Lt Bob Bohna who flew her in combat during World War II and nearly became a reverse ace to Sten Soderquist who flew her in Sweden in the early 50s when more than thirty Swedish pilots died in Mustang crashes to Nicaragua where she was involved in several of dictator Luis Somozas military adventures in the late 50s to California where Dave Allender modified her with the intent of setting a new world speed record for piston aircraft Almost forty years after her combat missions in the war Sierra Sue II is bought by a hard flying Minnesota physician known on the air show circuit simply as Doc His romance with Sierra Sue II continues where Bohna and Soderquist and Allender leave off But Doc is more than just another ardent admirer in her long history While an Air Force jet pilot in the 50s Doc crashed and suffered major injuries that ended his Air Force career During his long recuperation he took up a study of medicine that led to a general practice in Minneapolis Now he is determined to restore Sierra Sue II to her World War II condition and take her on the Midwest air show circuit We follow that restoration in California by a mechanical genius named Jack Cochrane and then Docs cross country flight to Minnesota ending in a harrowing landing at nightfall on a remote airstrip on the Minnesota prairie Millions of air show fans have enjoyed the sight of Sierra Sue IIs ageless beauty Now here is her story **XML in 60 Minutes a Day** Linda McKinnon, Al

McKinnon, 2003-07-07 XML is now ubiquitous not just in Web development but as the underpinning of interactive Web services applications that really do run on any platform Includes twenty four one hour lessons that recreate a typical week long introductory seminar Provides readers with a sound fundamental understanding of XML and how it changes application development Explains how to use XML when dealing with transforms schemas and other Web services requirements The authors teach courses for IBM Canada Companion Web site features an online presentation by the authors that follows along with each chapter and includes an audio only option for readers with dial up Internet connection **Body and Earth**

Andrea Olsen, 2020-02-04 Body is our first environment writes Andrea Olsen It is the medium through which we know the earth In a remarkable integration of environmental science biology meditation and creative expression Olsen a dancer who teaches in the environmental studies program at Middlebury College offers a guide to a holistic understanding of person and place Part workbook part exploration Body and Earth considers the question of how we can best most responsibly inhabit both our bodies and our planet Olsen displays an easy command of fields as diverse as geology biochemistry ecology and anatomy as she explores the ways in which our bodies are derived from and connected to the natural world But Body and Earth is not just a lesson it is also an investigation Arranged as a 31 day program the book offers not only a wealth of scientific information but also exercises for both exploring the body and connecting with place illustrations and works of art that illuminate each chapter s themes and Olsen s own meditations and reflections connecting the topics to her personal history and experience Olsen insists that neither body nor landscape are separate from our fundamental selves but in a

culture which views the body as a mechanism to be trained and the landscape as a resource to be exploited we need to learn to see again their fundamental wholeness and interconnection Through hard data reflection exercises and inspiration Body and Earth offers a guide to responsible stewardship of both our planet and our persons
