Breaking with the practice of close reading of individual texts, Frye seeks to describe a common basis for understanding the full range of literary forms by examining archetypes, genres, poetic language, and the relations among the text, the reader, and society. Using a dazzling array of examples, he argues that understanding the structure of literature as a total form also allows us to see the profoundly liberating effect literature can have. **Saturday Review of Politics, Literature, Science and Art**, 1864 **Saturday Review**, 1864 *The Bookseller*, 1968 Vols for 1871, 76, 1913, 14 include an extra number.
