Social interaction, identity and language learning during residence abroad Rosamond Mitchell, Nicole Tracy-Ventura, Kevin McManus, 2015-08-10 Study and residence abroad are important for adult second language learning

promoting oral skills fluency and sociopragmatic competence in particular alongside broader intercultural competence. However, learner achievements during residence abroad are variable and cannot be fully understood without attention to the social settings in which learners engage and the social networks they develop. This edited collection explores the relationship between sociocultural experience, identity and language learning among student sojourners abroad. Three broad themes are identified: the contribution of different settings (host families, student exchanges, work placements etc.) to language learning opportunity; the role of social networks in sojourners' language practices and learning success; and their evolving social identities. The book is relevant for a readership interested in informal second language learning as well as for managers of residence abroad programmes.

Resources in Education, 2001-04 *Continuing Professional Development of TESOL Practitioners* Andrzej Cirocki, Raichle Farrelly, Heather Buchanan, 2023-11-27 This textbook serves as a current and comprehensive resource on effective Continuing Professional Development (CPD) for TESOL practitioners in various contexts around the world at various stages in their careers. The practices described by language teachers, teacher educators and professional development providers in this book offer a vision of critical issues to consider when designing and evaluating professional development opportunities. Effective professional development requires careful planning informed by the realities of the local context and the specific needs of the teachers. This textbook is designed to support those who provide professional development opportunities by presenting global perspectives on professional development for a range of teaching contexts at different language levels. Each chapter includes a discussion about the type and source of support available in the given context as well as a reflection on the challenges that exist for both teachers and CPD providers. These insights serve to help CPD designers and providers as they problematize teacher development opportunities in their context. Each chapter concludes with a synthesis of the strengths of CPD in the local context and a discussion of future directions that target opportunities for transformation and improvement. This volume celebrates teachers, teacher educators and CPD providers around the world. High impact practices are presented from fifteen countries: Cameroon, Canada, Costa Rica, Indonesia, Kazakhstan, Malta, New Zealand, Norway, Oman, Qatar, South Africa, South Korea, Sri Lanka, Tanzania and the United States of America.

Research in Education, 1970 *Chinese for Specific and Professional Purposes* Hongyin Tao, Howard Hao-Jan Chen, 2019-08-20 This book, likely the first of its kind in the English language, explores Chinese for specific and professional purposes (CSP) in terms of theorizing and developing practical applications for language teaching and learning. While research in language for specific purposes is thriving for languages such as English, there has been comparatively little such research conducted for Chinese. This volume attempts to fill the gap by bringing together practitioners from a broad international scholarly community who share common interests yet diverse orientations. Seventeen papers are included and address four broad thematic categories: 1 academic Chinese, 2 business Chinese, 3 Chinese for medicine and health care, and 4 Chinese for other broadly defined services and industries (diplomacy, tourism, wine tasting etc.).

Representing the state of the art in CSP research the book offers an indispensable guide for anyone interested in theoretical and practical issues in this area of applied Chinese language studies *Errors and Intelligence in Computer-Assisted Language Learning* Trude Heift, Mathias Schulze, 2007-11-13 This book provides the first comprehensive overview of theoretical issues historical developments and current trends in ICALL Intelligent Computer Assisted Language Learning It assumes a basic familiarity with Second Language Acquisition SLA theory and teaching CALL and linguistics It is of interest to upper undergraduate and or graduate students who study CALL SLA language pedagogy applied linguistics computational linguistics or artificial intelligence as well as researchers with a background in any of these fields **Congressional**
