Case studies with concept maps depict patients with problems that might be experienced in the clinical setting and are followed by a series of critical thinking questions with every chapter. Application of the QSEN competencies. A question that challenges you to apply a QSEN competency is provided within the critical thinking questions of each case study. Lessons from the Evidence boxes highlight and summarize current research that can contribute to evidence-based clinical practice. Lessons from the Courtroom boxes summarize actual court cases related to the skills in the chapter in order to help you understand legal implications and Lessons from Experience boxes use a storytelling format to share the experiences of more experienced nurses with students.
