Problems, Third Edition Carolyn S. Schroeder, Julianne M. Smith-Boydston, 2017-08-07 This highly accessible work now thoroughly revised has shown thousands of students and clinicians how to assess and treat children's emotional and behavioral difficulties from a developmental perspective. The authors provide a sound understanding of typical development ages 2-12 and the risk and protective factors for psychopathology. Chapters on common psychological disorders and family stressors describe the nature of each problem, review evidence-based treatments, and offer step-by-step guidelines for intervention illustrated with helpful case examples. A comprehensive framework for assessing children and planning treatment is used throughout. Purchasers get access to a Web page where they can download and print the book's 24 reproducible forms and handouts in a convenient 8 1/2 x 11 size. New to This Edition: Chapters on developmental disabilities and trauma. Significantly revised to reflect advances in assessment, treatment, and developmental psychopathology research. Additional material on pharmacological treatments in each disorder-specific chapter. Sibling rivalry chapter expanded to include difficulties with peers. Updated for DSM-5.

Differential Diagnosis of Autism Spectrum Disorder Katherine K. M. Stavropoulos, James C. McPartland, 2022-08-09 The assessment and diagnosis of autism is difficult and clinicians must consider other possible conditions and disorders which can lead to delays or misdiagnosis. Finally, a comprehensive and essential guide is available for students and medical professionals that provides clear explanations to aid in the diagnostic process. Using real-world examples, clinical case studies, illustrations, and decision trees, *Differential Diagnosis of Autism Spectrum Disorder* is a must-have reference for every professional in the field of ASD.

Handbook of Autism and Pervasive Developmental Disorder Johnny L. Matson, Peter Sturmey, 2022-08-11 This handbook provides a substantive foundation of autism theory and research, including a comprehensive overview, conceptualization, and history of autism spectrum disorder (ASD) and pervasive developmental disorder (PDD). This robust reference work integrates the broad scholarly base of literature coupled with a trenchant analysis of the state of the field in nosology, etiology, assessment, and treatment. Its expert contributors examine findings and controversies, e.g., the actual prevalence of autism, as well as longstanding topics of interest as well as emerging issues from around the globe. In addition, the handbook describes multiple assessments, diagnoses, interventions, and treatments for autism and PDD. It addresses such key topics as assessment of core symptoms and comorbidities, risk factors, epidemiology, diagnostic systems, neuroscience, as well as issues regarding family adaptation. In addition, the handbook explores the rapidly evolving and expanding topics of medications, diets, fringe, and harmful treatments, applied behavior analysis, and early intensive behavioral interventions. Key areas of coverage include: Survey of diagnostic criteria and assessment strategies for autism and pervasive developmental disorder; Genetic, behavioral, biopsychosocial, and cognitive models of autism; assessment and treatment; Psychiatric disorders in individuals with ASD; Theory of mind and facial recognition in persons with autism; Diagnostic instruments for assessing core features and challenging behaviors in autism and PDD; Evidence-based psychosocial, pharmacological, and integrative treatments for autism and other developmental

disabilities Interventions specifically for adults with ASD Training issues for professionals parents and other caregivers of individuals with autism and developmental disabilities Review of findings of successful and promising therapies coupled with guidance on how to distinguish between dubious and effective treatments for autism and PDD The handbook is an indispensable resource for researchers professors graduate students as well as clinicians therapists and other practitioners in clinical child and school psychology child and adolescent psychiatry social work special education behavioral rehabilitation pediatric medicine developmental psychology and all allied disciplines
