APUSH AMSCO NOTES - UNIT THREE (1754-1800)

Chapter 9: Imperial Wars and Colonial Protest

Empires at War

- Late in the 17th century, war broke out involving Great Britain, France and Spain
- Wars had high stakes bc the winner would stand to gain supremacy in the West Indies and Canada to dominate lucrative colonial trade. These wars included:
 - King William's War (1689-1697) and Queen Anne's War (1702-1713)
 - British launched expeditions to capture Quebec but failed in both events
 - King George's War (1744-1748)
 - British colonies were under attack from their perennial rivals, the French and the Spanish
 - James Oglethorpe led a colonial army that managed to evade Spanish attacks
 - The Seven Years War (French and Indian War)
 - North American phase is often referred to as the French and Indian War
 - British POV: French provoked this war by building a chain of forts in Ohio River Valley, halting the westward expansion of British colonies
 - The Governor of Virginia sent a small troop of militia led by George Washington to win control of the Ohio River valley, in which the colonies were successful, sparking conflict between Britain and France
 - After years of fighting, first in North America, then in Europe, British were named victorious with the Peace of Paris (1763), which basically gave Britain a lot and France got next to nothing.
 - Britain was established as the dominant naval power in the world and walked away from the war with a low opinion of colonial military abilities.
 - Colonies thought the opposite and felt confident that they could provide or their own defense.
