Practical Theorising in Teacher Education Katharine Burn, Trevor Mutton, Ian Thompson, 2022-07-28 This insightful collection offers a timely contribution to the body of research on practical theorising in teacher education Acknowledging the importance of experience and reflective practice in teaching this book simultaneously embraces the essential need for teachers at all career stages to engage effectively and critically with evidence from research Drawing together a range of perspectives from university based and school based teacher educators this book examines the challenges and critiques advanced when practical theorising was first proposed as well as recent tensions created by the performative culture that now pervades education It illustrates the constant renegotiation and renewal necessary to sustain such an approach to beginners learning investigating a range of tools developed by teacher educators to help beginning teachers navigate these demands Demonstrating the value of practical theorising and therefore promoting powerful professional learning for practitioners this book is essential for teachers at all career stages including trainee teachers and student teachers Iran Revisited Ali Pirzadeh, 2016-04-20 This book examines Modern Iran through an interdisciplinary analysis of its cultural norms history and institutional environment The goal is to underline strengths and weaknesses of Iranian society as a whole and to illustrate less prescriptive explanations for the way Iran is seen through a lens of persistent collective conduct rather than erratic historical occurrences Throughout its history Iran has been subject to many studies all of which have diagnosed the country's problem and prescribed solutions based on certain theoretical grounds This book intends to look inward seeking cultural explanations for Iran's perpetual inability to improve its society The theme in this book is based on the eloquent words of Nasir Khusrau a great Iranian poet *az mast ki bar mast* The words are from a poem describing a self adoring eagle that sees its life abruptly ended by an arrow winged with its own feathers the bird is doomed by its own vanity The closest interpretation of this idiom in Western Christian culture is you reap what you sow which conveys a similar message that underlines one's responsibility in the sense that sooner or later we must face the choices we make This would enable us to confront and live up to what Iran's history and culture have taught us **The What, Why and How of Assessment ,**
