As with all exams the same questions keep coming up. Make sure you know what they are AND how to answer them. What this book is: An educational resource reviewing the use of statistics and the three statistical tests you need to be familiar with for your EMPA Exam style questions on experimental design with exemplar answers based on previous mark schemes. It clearly walks through when each statistical test is used, includes worked examples and then an exam style question with a following mark scheme based on previous past papers. It comprehensively and thoroughly sets you up for task 1 and 2 as well as section A of the written paper. It also gives some insight into the style of questions in section B. What it is not: Written based on having seen this coming year's exam. This is not cheating. [As Biology Aqa A Revision Guide](#)
