

### 3. Marking points

#### 3.1 Marking of lists

This applies to questions requiring a set number of responses, but for which students have provided extra responses. The general principle to be followed in such a situation is that 'right + wrong = wrong'.

Each error / contradiction negates each correct response. So, if the number of error / contradictions equals or exceeds the number of marks available for the question, no marks can be awarded.

However, responses considered to be neutral (indicated as \* in example 1) are not penalised.

Example 1: What is the pH of an acidic solution?

[1 mark]

| Student | Response | Marks awarded |
|---------|----------|---------------|
| 1       | green, 5 | 0             |
| 2       | red*, 5  | 1             |
| 3       | red*, 8  | 0             |

Example 2: Name two planets in the solar system.

[2 marks]

| Student | Response                                                      | Marks awarded |
|---------|---------------------------------------------------------------|---------------|
| 1       | Mercury, Venus, Earth, Mars, Jupiter, Saturn, Uranus, Neptune | 0             |

#### 3.2 Marking of extended responses (questions)

For questions requiring an extended response, the whole response of a candidate is marked. The whole of the given answer is marked and not just the correct parts of the answer. Each error is penalised.

#### 3.3 Marking procedures for calculations

Errors should be marked for each stage of the calculation completed correctly. An incorrectly calculated answer does not mean that the whole calculation is marked as given for a correct answer. Errors will not only marking errors.

#### 3.4 Interpretation of 10

Answers using the word 10 should be given credit only if it is clear that the 10 refers to the correct subject.

# Aqa D1 Jan 2013 Mark Scheme

**H. Rees**

## **Aqa D1 Jan 2013 Mark Scheme:**

AQA Year 1/AS Mathematics Exam Practice Jan Dangerfield, Rose Jewell, Sue Pope, Andrew Roberts, Nick Geere, 2018-03-29 Benefit from the expert input of experienced examiners and subject specialists including Heather Davis in this assessment led Practice Book tailored to the new 2017 specifications and packed with exam style questions Thoroughly prepare your students for the exam with over 200 exam style questions that are matched to the new specifications Provide structured support and extra practice with questions focused on problem solving modelling and technology Create opportunities for self directed learning and assessment with answers at the back of the book plus full step by step worked solutions and mark schemes supplied online Enhance learning with extra practice designed to supplement the textbooks and the My Revision Notes series      **The Essentials of AQA.** H. Rees, 2005      A-Level Mathematics Andy Ballard, 2017
