interpersonal exchanges and cross cultural interventions The volume explores the multifarious ways in which subjects citizens communities and states negotiate the mutual and potentially exclusive desires to secure themselves and offer hospitality to others From the individual s telephone and data to the threshold of the family home to the borders of the nation sites of securitization confound hospitality s injunction to openness gifting and refuge In demonstrating an interrelation between ongoing discussions of hospitality and the intensifying attention to security the book engages with a range of literary cultural and geopolitical contexts drawing on work from other disciplines including philosophy political science and sociology Further it defines a new interdisciplinary area of inquiry that resonates with current academic interests in world literature transnationalism and cosmopolitanism

Madness, Betrayal and the Lash Stephen R. Bown,2009-12-01 From 1792 to 1795 George Vancouver sailed the Pacific as the captain of his own expedition and as an agent of imperial ambition To map a place is to control it and Britain had its eyes on America s Pacific coast And map it Vancouver did His voyage was one of history s greatest feats of maritime daring discovery and diplomacy and his marine survey of Hawaii and the Pacific coast was at its time the most comprehensive ever undertaken But just two years after returning to Britain the 40 year old Vancouver hounded by critics shamed by public humiliation at the fists of an aristocratic sailor he had flogged and blacklisted because of a perceived failure to follow the Admiralty s directives died in poverty nearly forgotten In this riveting and perceptive biography historian Stephen Bown delves into the events that destroyed Vancouver s reputation and restores his position as one of the greatest explorers of the Age of Discovery

Fractal Time Braden Gregg,2010-03-01 In this compelling exploration of life Gregg Braden merges the modern discoveries of nature s patterns fractals with the ancient view of a cyclic universe The result is a powerful model of time fractal time and a realistic window into what we can expect for the mysterious year 2012 and beyond Applying fractal time to the history of the world and life he proposes that everything from the war and peace between nations to the patterns of human relationships mirror the returning cycles of our past As each cycle repeats it carries a more powerful amplified version of itself The key If you know where to look in the past you know what to expect when the same conditions return in the present and future For the first time in print the Time Code Calculator gives you the tool to do just that Through easy to understand science and step by step instructions discover for yourself How the conditions for 2012 have occurred in the past and what we can expect when they repeat The hot dates that hold the greatest threats of war and greatest opportunities for peace as well as economic cycles such as the stockmarket collapse of 2008 How Earth s location in space triggers cycles of spiritual growth for humans Your personal Time Codes for the key events of business relationships and change in your life How each cycle carries a window of opportunity a choice point that allows us to select a new outcome for the returning pattern What the 1999 ice cores from Antarctica reveal about past cycles of climate global warming Earth s protective magnetic fields and what these things mean for us today

A Telic Theory of Trust J. Adam Carter, 2024-05-23 What is it to trust well How do we do it If we think of trust as a kind of aimed performance capable of not only success but also of competence and aptness our understanding of what it is to trust well can be put on an entirely new footing A Telic Theory of Trust takes up this project and in doing so makes use of the core trust as performance idea developed and refined in substantive detail in the service of explaining a range of philosophically important questions the nature and varieties of trust the evaluative norms that govern good trusting and distrusting both implicit and deliberative how trust relates to vulnerability risk negligence and monitoring as well as to trustworthiness and more generally to our practices of cooperation The result a telic theory of trust opens up new conceptual possibilities and a research agenda in the philosophy of trust that is methodologically in the spirit of virtue epistemology but which takes on its own distinctive shape

Tonal Intelligence Sunny Xiang, 2020-12-15 Why were U S intelligence organizations so preoccupied with demystifying East and Southeast Asia during the mid twentieth century Sunny Xiang offers a new way of understanding the American cold war in Asia by tracing aesthetic manifestations of Oriental inscrutability across a wide range of texts She examines how cold war regimes of suspicious thinking produced an ambiguity between Oriental enemies and Asian allies contributing to the conflict s status as both a real war and a long peace Xiang puts interrogation reports policy memos and field notes into conversation with novels poems documentaries and mixed media work by artists such as Theresa Hak Kyung Cha Kazuo Ishiguro Ha Jin and Trinh T Minh ha She engages her archive through a reading practice centered on tone juxtaposing Asian diasporans who appear similar in profile yet who differ in tone Tonal Intelligence considers how the meaning of race war and empire came under pressure during two interlinked periods of

geopolitical transition American nation building in East and Southeast Asia during the mid twentieth century and Asian economic modernization during the late twentieth century By reading both state records and aesthetic texts from these periods for their tone rather than their content Xiang shows how bygone threats of Asian communism and emergent regimes of Asian capitalism have elicited distinct yet related anxieties about racial intelligibility Featuring bold methods unlikely archives and acute close readings Tonal Intelligence rethinks the marking and making of race during the long cold war
