AUUGN ,1993-12 **Symposium on Federal Sentencing Policy for Economic Crimes and New Technology**
Offenses ,2000 **The Oxford Handbook of Prisons and Imprisonment** John Wooldredge,Paula H. Smith,2018 The Oxford Handbook of Prisons and Imprisonment provides the only single source that bridges social scientific and behavioral perspectives providing graduate students with a more comprehensive understanding of the topic academics with a body of knowledge that will more effectively inform their own research and practitioners with an overview of evidence based best practices *Technocrime* Stéphane Leman-Langlois,2013-05-13 This book is concerned with the concept of technocrime The term encompasses crimes committed on or with computers the standard definition of cybercrime but it goes well beyond this to convey the idea that technology enables an entirely new way of committing combating and thinking about criminality criminals police courts victims and citizens Technology offers for example not only new ways of combating crime but also new ways to look for unveil and label crimes and new ways to know watch prosecute and punish criminals Technocrime differs from books concerned more narrowly with cybercrime in taking an approach and understanding of the scope of technology s impact on crime and crime control It uncovers mechanisms by which behaviours become crimes or cease to be called crimes It identifies a number of corporate government and individual actors who are instrumental in this construction And it looks at the beneficiaries of increased surveillance control and protection as well as the targets of it Chapters in the book cover specific technologies e g the use of CCTV in various settings computers hackers and security experts photo radar but have a wider objective to provide a comparative perspective and some broader theoretical foundations for thinking about crime and technology than have existed hitherto This is a pioneering book which advances our understanding of the relationship between crime and technology drawing upon the disciplines of criminology political science sociology psychology anthropology surveillance studies and cultural studies *When Crime Waves* Vincent F Sacco,2005-05-11 Despite its wide usage the concept of the crime wave has rarely been given explicit and detailed attention by criminologists It is important that we understand where they come from how they develop and what their consequences are When Crime Waves offers an in depth exploration of a large number of social issues involved in the study of crime waves Issues such as how and why crime rates change over time why some types of crime and not others come in waves and the role played by the mass media politicians and interest group leaders in the promotion of crime waves are discussed to help students develop analytical skills and apply them to real world situations Key Features Critically examines the phenomenon of crime waves in an engaging fashion Provides multiple perspectives via historical and contemporary examples throughout the book Delves into the role played by politicians and the media in creating the perception that a crime wave has occurred Presents themes of myth making cultural imagery and social constructionism When Crime Waves is intended to be a supplementary text for undergraduate criminology and sociology courses including Introduction to Criminology and Criminal Justice Crime when

and where crimes occur and what contributes to the views on crime held by the police lawmakers and members of the general public

Crime, Punishment, and Restorative Justice Ross London, 2014-12-03 Can restorative justice be applied to a full range of offenses Ross London answers with an unequivocal Yes London proposes that by focusing on the restoration of personal and social trust restoration may become acknowledged as the overarching goal of all criminal justice policies and practices While supporting the use of restorative justice as a non punitive alternative for appropriate cases London argues that deserved punishment for serious offenses far from contradicting the goal of restoration may be instrumental for the emotional recovery of crime victims the security of communities and for the successful reintegration of offenders Moreover this approach responsibly minimizes resort to punishment by maximizing all of the many other means of restoring trust Drawing on his experience as a judge prosecutor and public defender London offers a pragmatic vision of restorative justice that integrates its core values with real world applications for even the most serious violent crimes

Criminal Justice Research National Institute of Justice (U.S.),1980 [Criminal Justice research solicitation](#) National Institute of Justice (U.S.),1982 [Making Sense of Youth Crime](#) Jacqueline E. Ross,Thierry Delpuech,2023-03-09 This comparative empirical study of policing in the United States and France draws on the authors ten years of field work to contend that the police in both countries should be thought about as an amalgam of five distinct professional cultures or intelligence regimes each of which can be found in any given police department in both the United States and France In particular we contend that what police do as knowledge workers and how they make sense of the social problems such as collective offending by juveniles varies with the professional subcommunities or intelligence regimes in which their particular knowledge work is embedded The same problem can be looked at in fundamentally different ways even within a single police department depending on the intelligence regime through which the problem is refracted

[Co-production and Criminal Justice](#) Diana Johns,Catherine Flynn,Maggie Hall,Claire Spivakovsky,Shelley Turner,2022-08-09 This book explores practical examples of co production in criminal justice research and practice Through a series of seven case studies the authors examine what people do when they co produce knowledge in criminal justice contexts in prisons and youth detention centres with criminalised women from practitioners perspectives and with First Nations communities Co production holds a promise that people whose lives are entangled in the criminal justice system can be valued as participants and partners helping to shape how the system works But how realistic is it to imagine criminal justice service users participating partnering and sharing genuine decision making power with those explicitly holding power over them Taking a sophisticated yet accessible theoretical approach the authors consider issues of power hierarchy and different ways of knowing to understand the perils and possibilities of co production under the shadow of justice In exploring these complexities this book brings cautious optimism to co production partners and project leaders The book provides a foundational text for scholars and practitioners seeking to apply co production principles in their research and practice With stories from Australia the United Kingdom and Ireland the text will appeal to the international community For students of criminology and social work the book s critical insights will enhance their work in the field
