Christian Theological Education and the Response to the Crisis in Zimbabwe Bekithemba Dube,Gift Masengwe,2025-10-02 The book offers an incisive examination of the governing philosophy of the Zimbabwe African National Union Patriotic Front ZANU PF referred to as Zanupfism characterizing it as marked by callousness and malevolence towards dissenting voices from civil society and opposition factions This pernicious application of power extends beyond mere verbal aggression to encompass militaristic actions engendering a profound generational crisis within Zimbabwe The contributors explore the compelling juxtaposition between President Emmerson Mnangagwa and the biblical Nebuchadnezzar II a ruler notorious for his autocratic reign and expansive ambitions Further critically scrutinizing the complicity of neo Pentecostal prophets in the book reveals how these religious figures promote an esoteric understanding of the divine diverging from a theology rooted in justice thereby enabling the oppressive regime s practices This critique underscores the imperative for prophets to recalibrate their theological perspectives urging them to move beyond magical interpretations of faith toward an authentic engagement with a personal God who champions justice The book further

encompasses the complex interplay of political and religious narratives examining how church leaders either bolster or undermine Mnangagwa's political ideology highlighting the tendency among certain religious factions to deify political authority ultimately exacerbating societal inequities In advocating for a transformative theological discourse in Zimbabwe the book asserts that religious narratives must serve as instruments for fostering democracy social justice and equity rather than sustaining a status quo that entrenches authoritarian governance The necessity for unified principled resistance grounded in the collective agency of the populace emerges as a salient theme in the quest for meaningful political and social reform

Chinese Investment in Africa Freedom Mazwi, George T. Mudimu, Kirk Helliker, 2024-03-01 This edited volume systematically interrogates the Chinese investment presence in Africa focusing on land and agriculture mining and other infrastructural projects In doing so the form and extent of Chinese debt will be brought into perspective with comparisons made to investments in Africa emanating from metropolitan capitalism The volume examines the development potential of these investments by focusing on the labour regimes created and the effects of investments on the land based agricultural livelihoods of the African peasantry This entails the use of a political economy approach which incorporates the state

international actors and local communities into the analysis with gender dynamics also of great significance Overall the contributions in this volume focus on an array of African nations with a specific focus on Zimbabwe and they deploy a large wealth of primary field based data collected over a number of years by established and emerging scholars living and working on the continent

How China is Reshaping the Global Economy Rhys Jenkins, 2022-06-16 China's growing economic involvement in Sub Saharan Africa and Latin America has been a source of major controversy The official Chinese position maintains that the growth of bilateral relations is of mutual benefit and provides a good example of South South cooperation Critics on the other hand see the economic relations between China and other developing countries as highly unequal with most of the benefits accruing to China and a few local elites They also point to negative socio economic political and environmental consequences

How China is Reshaping the Global Economy Development Impacts in Africa and Latin America throws more light on these controversies through a comparative study of China's impact on the two regions It looks not just at bilateral relations between China and the two regions but also analyses the changes in the global economy brought about as a result of the shift in economic activity from North America and Western Europe to Asia This book looks at the factors which led to rapid economic growth in China and the way in which this has affected global manufacturing commodity markets the international presence of Chinese companies and financial flows It examines the different forms of Chinese economic involvement in Sub Saharan Africa and Latin America the main drivers and economic social political and environmental consequences It ends with a comparison of the two regions that highlights the importance of different histories and political and institutional contexts in determining the impacts of China Since the first edition of *How China is Reshaping the Global Economy Development Impacts in Africa and Latin America* China's role in the global economy has continued to expand and the Chinese government's foreign policy has become more assertive The global presence of China has been marked by the expansion of the Belt and Road Initiative to almost 150 countries and the trade war between the US and China as well as increased Western concerns over the activities of major Chinese companies such as Huawei This new edition documents these changes and their implications for SSA and LAC

Engendering Democracy in Africa Niamh Gaynor, 2022-06-01 This book investigates women's political participation in Africa Going beyond the formal institutions of electoral politics it explores a range of spaces where everyday politics take place at national and at local levels In recent years there have been significant improvements in the number of women elected to parliament in Africa However there is little indication that this is translating into better developmental outcomes and indeed there is mounting evidence that it could in fact help to bolster some authoritarian regimes Starting from the premise that politics is a far broader project than securing a seat in national or local legislatures alone this book explores the opportunities for women's political participation across a number of informal spaces where women and men gather organise and interact in a more regular and systematic manner Combining insights from political science sociology and feminist theory and drawing on detailed cases from the

Congo Kenya Malawi Nigeria and Rwanda it examines how power in its multiple dimensions circulates across a range of everyday political spaces while drawing attention to the links between domestic gender inequalities and the global political economy Inviting scholars practitioners and activists to broaden their focus beyond formal electoral institutions if they want to support women to become more politically active this book provides fresh insights into major issues at the heart of African studies development studies gender and development democratisation and international relations

The Struggles of Post-Independence Nigeria Ucheoma Nwagbara, 2022-02-01 In *The Struggles of Post Independence Nigeria* Ucheoma Nwagbara argues that despite Nigeria's oil wealth and arable agricultural land Nigerians are not any better today than they were before independence Nwagbara examines Nigeria's struggles with corruption reckless government spending poverty inequality crime and violent insurgency to show how successive Nigerian leadership has failed to utilize the country's enormous natural and human resources to improve citizens' lives eradicate poverty and deliver broadly shared prosperity especially to the middle class and the poor Through his analysis Nwagbara demonstrates that the nationalist ideals of dedicated and accountable leadership behind the struggle for independence in Nigeria have been betrayed as the emergent post colonial leadership cared only for personal survival and gain Despite these failures Nwagbara reveals that Nigeria may still have a chance to improve and recover if Nigerians unite and demand real change through political and social activism
