## **A Path To Self Accompanied Inner Communication:**

A Path to Self Martine Garcin-Fradet, 2013-07-09 A path to Self This book is the synthesis of my work detailed in my previous books My objective is to explain the elaboration of an unknown yet very promising accompaniment technique I am talking about CPA in English Accompanied Inner Communication By accompanying the hand over a computer keyboard expression emerges from a part of ourselves that we do not usually have access to Thanks to this particular type of communication the hand becomes the heart's messenger By accompanying the hand over a computer keyboard the expression of a part of ourselves that we don't usually have access to emerges AIC is used with people who cannot speak as well as those who can The vision of handicap undergoes a quantum shift The typed texts show that no matter what the handicap is that limits communication or speaking an intact conscience unfolds at another level of reality than the cognitive or sensorial system The support of the hand opens the access to this intact part of the individual It is an approach that seems simple yet requires that the professionals using it be in a very special state of presence It is a state of consciousness that allies vigilance and total release which allows the sacred aspect of the text to emerge AIC does not claim to have a new theory about man or life It cannot be considered as a simple technique or as a treatment It is an attitude a welcome a companionship Accompanied Inner Communication helps each person accompanied to better structure himself and live his own life free of unconscious loyalties and useless attachments Listening is an essential aspect of Accompanied Inner Communication By listening and with the texts that emerge the person connects to his inner Self If this approach raises questions it also gives fabulous hope which contributes to each person's meaning of life

*A Path to Self* Martine Garcin-Fradet, 2013-11-28 The objective of this book is to explain the elaboration of an unknown yet very promising accompaniment technique The name of this approach is CPA in English Accompanied Inner Communication By accompanying the hand over a computer keyboard expression emerges from a part of ourselves that we do not usually have access to Accompanied Inner Communication associates words with touching by establishing contact and cupping the accompanied person's hand This communication is above all a welcome allowing each accompanied person to better structure himself and live his own life Listening in Accompanied Inner Communication is connecting the person to himself to his inner self The objective of this accompanying work is to facilitate the emergence of an aspect of the past as it was recorded by the person who is consulting so that he/she can live the present with increased consciousness It is not about rummaging around in the past but rather letting emerge what the person needs at that specific moment to live the present moment with consciousness and free of projections from the past AIC is used with people who cannot speak as well as those who can The vision of handicap undergoes a quantum shift The typed texts show that no matter what the handicap is that limits communication or speaking an intact conscience unfolds at another level of reality than the cognitive or sensorial system By accompanying the person with a handicap to write via AIC it is easier for them to find their place in this world and to give us messages destined

to help us grow In this way our jobs are reversed and the exchange between the person giving and the person receiving is respected while the dignity of each person is honored Accompaniment is an essential element in the technique the autor is using and teaching One of the goals of this accompaniment is to help the person consulting to stop judging himself to accept himself as he is and also to accept what life presents with as little resistance as possible AIC does not pretend to have a new theory about man or his life However it cannot be considered as a simple technique or treatment Accompanied Inner Communication allows each accompanied person to better structure himself and live his own life free from unconscious loyalties and useless attachments The Remembrance of I Am an Inner Journey of Self Discovery. a Channeled Course from Archangel Michael Carolyn Ann Oriley,2013-03-01 The Remembrance of I AM is a channeled course from Archangel Michael for all those that have stepped on to their spiritual path and are ready to go further Archangel Michael draws One back into themselves to remember the Soul s journey and mission within the NOW The material lifts One up so that they may learn to hear their own inner guidance This is a self paced course and for those that are ready it will lead to many new openings of awareness and bring One closer to remembering who they really are along with why they are here

**By Way Of The Personal Path**, 2013-03-16     *The Practitioner's Path in Speech-Language Pathology* Wendy Paper-Bernstein, 2017-11-01

*The Practitioner's Path in Speech Language Pathology: The Art of School Based Practice* bridges the gap between theory and practice, evidence-based practice and practice-based evidence, and the science and artistry of speech language pathology. This book takes a critical look at areas related to wellness, professional development, and growth that can impact the personal self along with the professional self. It examines each area through an overview of interdisciplinary research, in addition to personal narratives illustrating key principles and strategies, and offers the reader a professionally balanced perspective. The first section of the book helps us understand the importance of building a foundation for our clinical path through a discussion about scientific and evidence-based principles, different types of knowledge systems, and development of wisdom. The second section of the book helps us understand the importance of supporting our foundation through an introduction to reflection, counsel, and care, balance and harmony, growth and detachment. The third section of the book includes chapters that serve as pillars of practice, organizational frameworks, materials, and activities, measuring progress, best practices, and the importance of community. The fourth and final section of the book highlights shared vision, clinical expertise, emotional intelligence, leadership, trends, the scholarship of teaching and learning, and research dissemination. This book challenges us to consider our own perceptions about the explicit nature of professional practice and facilitates the development of four attitudes that can have a profound impact on both clinical success and professional satisfaction: a scientific attitude, a therapeutic attitude, a professional attitude, and a leadership attitude. It contains a blend of clinical evidence and research, practitioner views, common sense, philosophical stances, and historical overviews. *The Practitioner's Path in Speech Language Pathology* is designed for students and practitioners who are actively involved with the process of knowledge acquisition and targets issues we encounter along our path to becoming reflective practitioners as they relate to the excellence behind and scholarship within teaching and learning.
