and the extent to which patients pursued health by sampling diverse care options Starting with missionary penetration during the early nineteenth century the volume outlines interventions by the colonial state in medicine and public health and the continued resilience of indigenous healing in the face of this The book ends by relating past to present in scrutinising the legacy of historical structures including those of the apartheid state for current health care and in briefly discussing the huge challenges that the HIV Aids pandemic poses in impacting on them The book thus provides an inclusive history of medicine for the New South Africa *The Auxiliary Nurse* H.
