

<u>Topic</u>	: Anne Frank
<u>General Purpose</u>	: To inform
<u>Specific Purpose</u>	: To inform my audience the history of Anne Frank.
<u>Central Idea</u>	: The three historic points of Anne Frank are who is Anne Frank? The early life of Anne Frank and the impact of Anne Frank to the world.

I. Introduction

A. Attention Getter:

Once, there lived a guy who is very well-known to have a tiny mustache. He used to have a regime who once rules the world. Can you guess who he is? Yes, he was Adolf Hitler, who rules the Nazi's regime. Do you know that they were the main cause of Holocaust which murdered over a million of innocent children? I bet you don't.

B. Reveal topic:

So today, I would not be talking about the Nazi's, but about one of the innocent life the Nazi's have taken. She is known to be, Annelies Marie Frank or widely known as Anne Frank.

Anne Frank is just a young little Jewish girl who had been living her life happily. She was born on June 12th 1929 in Frankfurt, Germany. She had a father, Otto Frank, mother, Edith Frank and a sister 3 years her senior, named Margot Frank.

Anne Frank is now one of the most influential person in the century

as

she explained the actual events during the World War II. Anne Frank who is a well-acclaimed writer because of her style of writing, explained in her diary about the horrible experience all of them had gone through. Because of that, her name is very much well known worldwide in the history of the world.

From an incident to an inspiring life journey, Anne Frank has definitely captured the hearts of the people.

C. Credibility Statement:

1. I have been fascinated by the history of Anne Frank for as long as I can remember.
2. I have read, watched and heard about Anne Frank for some times as my friends and I have been discussing about her in our talks.

Virtual Holocaust Memory Matthew Boswell, Antony Rowland, 2023 The Holocaust was the defining cataclysm of modernity Now more than three quarters of a century later the immersive interactive technologies of the digital age are dramatically refashioning our memory of that genocide Virtual Holocaust Memory offers the first comprehensive account of a unique historical juncture as twenty first century digital culture meets the edge of living Holocaust memory The book considers a range of projects that are being developed by museums archives businesses and educational organizations in the USA and Europe including interactive video testimony Virtual Reality films Augmented Reality apps museum installations and online exhibitions Drawing on an original conceptual framework that incorporates connective memory palimpsestic testimony and a notion of truthfulness first applied to testimonial writing by the survivor Charlotte Delbo this groundbreaking book argues that the value of virtual Holocaust memory that is to say its truthfulness will ultimately come to rest on the connections that it establishes across a complex set of subject positions These range from new bystanders who encounter Holocaust memory from a position of relative safety to the traumatized victims whose extreme physical and psychological experiences made communicating so difficult in the first place

The Aesthetics of Scientific Experiments Milena Ivanova, Alice Murphy, 2023-06-16 The relationship between aesthetics and science has

begun to generate substantial interest. However, for the most part, the focus has been on the beauty of theories and other aspects of scientific practice have been neglected. This book offers a novel perspective on aesthetics in experimentation via ten original essays from an interdisciplinary group comprised of philosophers, historians of science and art, and artists. The collection provides an analysis of the concept of beauty in the evaluation of experiments. What properties do practising experimenters value? How have the aesthetic properties of scientific experiments changed over the years? Secondly, the volume looks at the role that aesthetic factors, including negative values such as ugliness, as well as experiences of the sublime and the profound, play in the construction of an experiment and its reception. Thirdly, the chapters provide in-depth historical case studies from the Royal Society, which also allows for a study of the depiction of scientific experiment in artworks, as well as contemporary examples from the Large Hadron Collider and cases of experiments designed by artificial intelligence. Finally, it offers an exploration of the commonalities between how we learn from experiments on the one hand and the cognitive value of artworks on the other. *The Aesthetics of Scientific Experiments* will be of interest to researchers and advanced students working in philosophy and history of science, philosophy and history of art, as well as practising scientists and science communicators.
