Nimmerblit, Griselda. "Flower Images in Fairy Tales since World War II." *Criticism in Contemporary Folk Narratives* 9.4 (1989): 71-89. Print.

Nimmerblit examines the significance of floral imagery in five different contemporary fairy tales. She argues that flowers have taken on an increasing importance in fairy stories since the end of World War II as a means of countering the "real world suburban sprawl that has occurred during the same time period" (72). Wildflowers in particular are used to evoke a Golden Age when humankind and nature existed in perfect harmony. Nimmerblit uses logical arguments to support her ideas, which are rooted in the Paleo-Verdo theory developed by the Greenman Folklorists. She also establishes some very plausible linkages between her research and the Paleo-Verdo-Jaundoists' theory of weed envy, making this article of great interest to scholars in both schools of thought.

Textbooks have been standard schoolroom fixtures for as long as most living citizens of this country can remember. Many turn of the century students were introduced to reading through the moralistic McGuffey Readers and struggled through the rather drab and colorless pages of volumes on history, geography, and civics. In contrast, today's textbooks contain not only narrative content accompanied by colorful photographs and graphics but also section and chapter exercises that are extended through the use of worksheets and other materials. Moreover, the textbook and its related student materials are packaged together with teacher's editions and tests in grade level sets that amount to content area programs rather than mere texts.

On Compiling an Annotated Bibliography James L. Harner, 2015-01-01 James Harner's popular pamphlet first published in 1985 has been revised and updated in the light of advances in computer technology and the availability of humanities databases. Harner offers useful information on planning research, organizing an annotated bibliography, compiling entries using a computer to prepare the manuscript, and editing. While the booklet focuses on the preparation of a comprehensive bibliography on a single literary author, the procedures and techniques are easily adapted to selective or subject bibliographies and to other periods and disciplines.
