

1. What is your role on the seniors development team?  
 Super- I answered the questions and helped Cora with the code.  
 Case- I worked on the app and completed the code.
2. What is the purpose of your program?  
 The purpose of our program is to help people with our emergency app. It also educates people on how to make up your own code without relying on someone/something else.
3. Where does the program integrate mathematical and/or logical concepts?  
 Mathematical is when we have to use the math as their search time it will take or if the emergency needs some kind of math.  
 Logical is pretty obvious. It is an app that can probably save a life if we actually use it.
4. What does one of the algorithms do in the program?  
 It makes one of the buttons have the ability to be pushed and get transferred to actually making an action.
5. How does an abstraction you created manage complexity in the program?  
 Hides all but the relevant data about an object in order to reduce complexity and increase efficiency. **Abstraction** is related to both encapsulation and data hiding.
6. What part of the code did you develop?  
 Case- I created most of the code.
