A Planetary Fairytale Acceptance:

A Planetary Fairytale Simonne Murphy, 2014-07-08 A Planetary Fairytale Acceptance is the first of a planned series of children's books about Earth and other planets in our solar system. This one begins with an argument among Sun, Moon, and the planets about whether to accept changes that followed the 2006 discovery of Eris, a planet orbiting beyond Pluto and larger than it. Subsequent decisions of astronomers promoted the largest asteroid Ceres to planet too. Although more recently they've decided to call them minor planets and reclassify Pluto as such, this fairytale is about the beginning of the changes. In an entertaining way and without mention of either big word astronomy or astrology, the story is about changes in both since the discovery of Eris. The full color illustrations are paintings of the planets in their relative sizes and colors, not cartoons just round orbs with celestial backgrounds and shading to suggest facial expressions that fit what each planet is saying. Finally, Sun demands that they stop arguing and get along with each other or he will decide which two of them to banish from his solar system. Moon chimes in with a gentler approach, the planets respond, and the fairytale ends quite happily.

He's also totally immature and refuses to grow up, so that's why she's leaving him. The arrival of James Hook in search of something Pan stole from him derails her plans to return to New London when he kidnaps her and takes her aboard the Jolly Roger. As they set off on an adventure that spans the galaxy while evading Admiral Croc who's on James's tail, Wendy soon realizes she doesn't need a boy when she can have a man.
