It was a monumental achievement when it came out as a first edition in 1999 bringing years of rigorous reading research together in a framework for teaching that made sense in actual secondary school classrooms. Now just thirteen years later Schoenbach and Greenleaf have several randomized clinical trials and multiple on going studies at their fingertips to demonstrate the effects of this approach for developing the reading and thinking of young people in our nation's middle and high school classrooms as well as in community college classrooms. Their careful work on developing disciplinary literacy among all students represents a passion for and commitment to supporting students and their teachers in reading for understanding which translates to reading for enjoyment, self awareness, learning and for purposeful and informed action in our society.
