Martin Sandbu, 2022-05-17 A radical new approach to economic policy that addresses the symptoms and causes of inequality in Western society today Fueled by populism and the frustrations of the disenfranchised the past few years have witnessed the widespread rejection of the economic and political order that Western countries built up after 1945 Political debates have turned into violent clashes between those who want to take their country back and those viewed as defending an elitist broken and unpatriotic social contract There seems to be an increasing polarization of values The Economics of Belonging argues that we should step back and take a fresh look at the root causes of our current challenges In this original engaging book Martin Sandbu argues that economics remains at the heart of our widening inequality and it is only by focusing on the right policies that we can address it He proposes a detailed radical plan for creating a just economy where everyone can belong Sandbu demonstrates that the rising numbers of the left behind are not due to globalization gone too far Rather technological change and flawed but avoidable domestic policies have eroded the foundations of an economy in which everyone can participate and would have done so even with a much less globalized economy Sandbu contends that we have to double down on economic openness while pursuing dramatic reforms involving productivity regional development support for small and medium sized businesses and increased worker representation He discusses how a more active macroeconomic policy education for all universal basic income and better taxation of capital could work together for society's benefit Offering real answers not invective for facing our most serious political issues The Economics of Belonging shows how a better economic system can work for all

Consuming Pleasures Daniel Horowitz, 2012-03-15 How is it that American intellectuals who had for 150 years worried about the deleterious effects of affluence more recently began to emphasize pleasure playfulness and symbolic exchange as the essence of a vibrant consumer culture The New York intellectuals of the 1930s rejected any serious or analytical discussion let alone appreciation of popular culture which they viewed as morally questionable Beginning in the 1950s however new perspectives emerged outside and within the United States that challenged this dominant thinking Consuming Pleasures reveals how a group of writers shifted attention from condemnation to critical appreciation critiqued cultural hierarchies and moralistic approaches and explored the symbolic processes by which individuals and groups communicate Historian Daniel Horowitz traces the emergence of these new perspectives through a series of intellectual biographies With writers and readers from the United States at the center the story begins in Western Europe in the early 1950s and ends in the early 1970s when American intellectuals increasingly appreciated the rich inventiveness of popular culture Drawing on sources both familiar and newly discovered this transnational intellectual history plays familiar works off each other in fresh ways Among those whose work is featured are Jürgen Habermas Roland Barthes

War and Revolution in South China Edward J. M. Rhoads, 2021-09-10 In *War and Revolution in South China* Edward Rhoads recounts his childhood and early teenage years during the Sino Japanese War and the early postwar years Rhoads came from a biracial family His father was an American professor while his Chinese mother was a typist and stenographer In the late 1930s and the 1940s the Rhoads family lived through the turbulent years in southern China and Hong Kong The book follows Rhoads childhood in Guangzhou his family s evacuation to Hong Kong his father s internment and repatriation to the United States and his and his mother s flight to Free China He recalls his reunion with family members in northern Guangdong Province in 1943 their retreat to China s wartime capital of Chongqing where his father worked for the American government and how they returned to Guangzhou after the war The Rhoads family then witnessed the socioeconomic recovery in the city and the regime change in 1949 The book ends with their departure from China to the United States in 1951 a year and a half after the Communist revolution The book fills an important gap in the scholarship by examining the impact of the Sino Japanese War in southern China from the perspective of one family Rhoads reveals that the war in this region while often neglected by scholars was in fact no less turbulent than it was in northern and central China He combines autobiography with serious historical research to reconstruct the lives of his family consulting a large number of archival documents private correspondence and scholarly literature to produce a rare study that is both scholarly and accessible This book is a very timely reminder that one should look at the experience of China during the Second Sino Japanese War and the Second World War from a regional perspective in order to understand the diverse historical experience of the people from different geographical ethnic cultural and social backgrounds Chi man Kwong Hong Kong Baptist University A pleasure to read and of compelling interest Edward Rhoads book explores the more benign side of the foreign influence in modern China the introduction of modern educational institutions The intriguing lens through which we look is his biracial family their multiple flights across southern China as refugees escaping war and their eventual expulsion from China Stephen Davies The University of Hong Kong *Standard Catalog for High School Libraries* ,1929 The 1st ed
