

1. **LABELLING:** Label the structures of the brain indicated in the following diagram.

2. On your right is a diagram of the right lateral view of the human brain.

(A) Match the letters on the diagram with the following list of terms and insert the appropriate letters in the answer blanks.

(B) Select different colors for each of the areas of the brain provided with a color-coding circle and use them to color in the coding circles and corresponding structures in the diagram. If an identified area is part of a lobe, use the color you selected for the lobe but use stripes for that area

3. Next is a diagram of the sagittal view of the human brain.

(A) Match the letters on the diagram with the following list of terms and insert the appropriate letter in each answer blank.

Measuring Resting Cerebral Perfusion using Magnetic Resonance Imaging (MRI) James Duffin,Alex Bhogal,2024-07-12

The acquisition of resting cerebral perfusion measures using magnetic resonance imaging MRI is one of the assessments of cerebrovascular health used to discern how well patients are coping with anatomical changes such as stenosis and other factors impacting the supply of blood flow to the brain Perfusion measures may be obtained using several MRI based techniques including arterial spin labeling ASL and dynamic contrast enhanced methods that rely on injected contrast agents such as gadolinium Recently hypoxia induced changes in deoxyhemoglobin have been used as a non invasive contrast agent measuring the resulting changes in blood oxygen dependent BOLD signals with MRI With each approach the means through which voxel wise cerebral perfusion information is derived differs leading to the development a variety of analysis methods in recent studies This Research Topic is intended to attract manuscripts that advance the use of resting cerebral perfusion measures in clinical assessments of cerebrovascular health In pursuit of this aim a better understanding of several aspects are needed **American Presbyterian and Theological Review** Henry Boynton Smith,James Manning Sherwood,1871
