

Write a page answering the two questions in APA format including intext citation.

1. Compensation is a detailed concept, and many employers and employees view it's components differently.

- Explain how pereceptions of compensation differ among the various disciplinary concepts.

- Select at least three of those concepts and discuss how these concepts are evident in the compensation platform at your current or former employer (or another company you have researched).

2. Compensation discrimination can be costly to organizations and as such, companies must work hard to ensure that their compensation practices are in alignment with legislation.

- Locate an example of a company that has violated one of the compensation laws that was discussed in this module. Describe the violation and its outcome (so it is important that you do not select cases that that still pending).

- Discuss how the company can avoid similar violations in the future.

classification with a two input perceptron matlab simulink - Dec 07 2022

web answers trial software product updates classification with a two input perceptron a two input hard limit neuron is trained to classify four input vectors into two categories each of the four column vectors in x defines a two element input vectors and a row vector t defines the vector s target categories we can plot these vectors with plotpv

neural networks a perceptron in matlab matlab geeks - Feb 09 2023

web may 11 2011 a simple single layer feed forward neural network which has a to ability to learn and differentiate data sets is known as a perceptron by iteratively learning the weights it is possible for the perceptron to find a solution to linearly separable data data that can be separated by a hyperplane

machine learning classify data with a perceptron in matlab - Aug 03 2022

web feb 12 2017 the single layer perceptron is a linear binary classifier that does not converge when the data is not linearly separable if we plot the data we get both classes are overlapping we can solve this use by adding a tolerance to your function generaterandomdata m

mastering multiclass classification with single layer medium - Jul 02 2022

web apr 12 2023 a single layer perceptron consists of an input layer connected to an output layer for a multiclass classification problem the output layer has c neurons one for each class the input features are multiplied by the weights

perceptron neural networks matlab simulink mathworks - Jul 14 2023

web the perceptron network consists of a single layer of s perceptron neurons connected to r inputs through a set of weights w_{ij} as shown below in two forms as before the network indices i and j indicate that w_{ij} is the strength of the connection from the
