Young Daniel Naroditsky 1995 has picked the most instructive examples of endgames in which you have to use ideas and plans in order to outplay your opponent This is not an encyclopaedia nor a manual on endings which are usually helpful but boring but a compendium of lively lessons and exercises The positions that International Master Naroditsky uses should not be memorized but understood and his acclaimed didactic skills will take your endgame technique to the next level Never before have the ideas that decide endings been explained so clearly With exercise at the end of each chapter **Expressing the Self** Minyao Huang, Katarzyna Jaszczolt, 2018 This book addresses different linguistic and philosophical aspects of referring to the self in a wide range of languages from different language families including Amharic English French Japanese Korean Mandarin Newari Sino-Tibetan Polish Tariana Arawak and Thai In the domain of speaking about oneself languages use a myriad of expressions that cut across grammatical and semantic categories as well as a wide variety of constructions Languages of Southeast and East Asia famously employ a great number of terms for first person reference to signal honorification The number and mixed properties of these terms make them debatable candidates for pronounhood with many grammar-driven classifications opting to classify them with nouns Some languages make use of egophors or logophors and many exhibit an interaction between expressing the self and expressing evidentiality qua the epistemic status of information held from the ego perspective The volume's focus on expressing the self however is not directly motivated by an interest in the grammar or lexicon but instead stems from philosophical discussions on the special status of thoughts about oneself known as *de se* thoughts It is this interdisciplinary understanding of expressing the self that underlies this volume comprising philosophy of mind at one end of the spectrum and cross-cultural pragmatics of self-expression at the other This unprecedented juxtaposition results in a novel method of approaching *de se* and *de se* expressions in which research methods from linguistics and philosophy inform each other The importance of this interdisciplinary perspective on expressing the self cannot be overemphasized Crucially the volume also demonstrates that linguistic research on first person reference makes a valuable contribution to research on the self tout court by exploring the ways in which the self is expressed and thereby adding to the insights gained through philosophy psychology and cognitive science Naked in the Wind Brinda Charry, 2007 Who Knows What I Am Who Cares I Don't Ever Step Into A Church And If I Go To The Temple It's Only To Look At The Bangle Stalls On The Big Festival Days Without Warning A Family On Campbell Street Wakes Up To The Return Of A Long Lost Member Vasu After Nearly Fifteen Years Of Unexplained Absence He Turns Up Suddenly Accompanied By Anand His Mysterious Caretaker They Are Met By Vasu's Family Including His Long Suffering Wife Shanti And Their Children Priya And Vivek Their Beautiful Strong Willed Yet Insecure Neighbour Kathy And The Feisty Flirtatious
