Mustang 5.0 Performance Projects Huw Evans, *American Cars, 1973-1980* J. "Kelly" Flory, Jr., 2012-11-14

The 1973 oil crisis forced the American automotive industry into a period of dramatic change marked by stiff foreign competition, tougher product regulations, and suddenly altered consumer demand. With gas prices soaring and the economy in a veritable tailspin, muscle cars and the massive need for speed engines of the late 60s were out, and fuel efficient compacts were in. By 1980, American manufacturers were churning out some of the most feature laden yet smallest and most fuel efficient cars they had ever built. This exhaustive reference work details every model from each of the major American manufacturers from model years 1973 through 1980, including various captive imports, e.g., Dodge's Colt built by Mitsubishi. Within each model year, it reports on each manufacturer's significant news and details every model offered, its specifications, powertrain offerings, prices, standard features, major options, and production figures, among other facts. The work is heavily illustrated with approximately 1,300 photographs.

Firebird Trans Am David Newhardt, David Newhardt

The Pontiac Firebird was originally overshadowed by the popular Chevrolet Camaro, but the Firebird developed a loyal following and a reputation for true high performance to earn a high profile spot in muscle car history. It also had a role in pop culture as Burt Reynolds drove a Trans Am in *Smokey and the Bandit*, and young David Hasselhoff took direction from his talking Trans Am in *Knight Rider*. While 1970s environmental and insurance interests emasculated most muscle cars, the Trans Am made a defiant last stand. In 1973, Pontiac introduced the mighty Trans Am Super Duty 455, one of the fastest muscle cars ever. The high performance, high profile history of the Firebird Trans Am is presented here, along with stunning color photos of choice models.
