FROM COMMUNICATIVE LANGUAGE TEACHING TO IMPROVE VOCABULARY ACHIEVEMENT: A Collection of Writings
 ISTIQOMAH P. RATU BANGSAWAN, 2020-04-16 In Indonesia where English is regarded as foreign language the teaching of this subject at most schools are still focused on the mastery of grammar and vocabulary Moreover the teaching and learning process is still using teacher centered approach Although there are four skills listening speaking reading and writing should be covered in the teaching of this subject but the fact some teachers are still reluctant teaching speaking into practice Therefore there is no improvement for both students who learn and teachers who teach and its application in the real world situation What students learn only what is printed on the books and practice it in front of the class The main problem usually comes from both teachers and students that they are non active speaking speakers But this can be solved by using Communicative Language Teaching Since the use of technology such as video television audiotapes the internet computer soft etc can come to aid of such teachers and young students Using Communicative Language Teaching CLT will Help students to use the target language in an authentic and meaningful way

Charles T. Clotfelter,1992-10-15 Over a million nonprofit organizations from day care centers and neighborhood churches to major research universities and metropolitan hospitals are currently relied upon to deliver an array of essential social services This is in keeping with a historical conviction that private voluntary action as opposed to government intervention should address as many of the nation s social needs as possible But just how much to rely on the nonprofit sector is the question at the center of a growing debate Critics challenge the assumption that nonprofit organizations have successfully directed much of their benefits toward the poor and disadvantaged an assumption that has to date justified favorable tax treatment for donations and nonprofit operations Who Benefits from the Nonprofit Sector examines all the major elements of the nonprofit sector health services educational and research institutions religious organizations social services arts and cultural organizations and foundations describing each institution and its function and then exploring how their benefits are distributed across various economic classes The book s findings indicate that while few institutions serve primarily the poor there is no evidence of a gross distribution of benefits upwards toward the more affluent The source of an institution s funding is also shown to be an important determinant in how its benefits are distributed They show for example that Nonprofit nursing homes and drug treatment centers have a lower concentration of Medicaid patients than their for profit public counterparts do Twenty seven percent of social service agencies serve primarily the poor and the large majority of these received most of their income from the federal government The effective educational subsidy i e cost of education less tuition per person at both public and private universities increases with income The analysis of this data makes for a book with profound implications for future social and tax policy Literacy and Learning in the Content Areas Sharon Kane,2017-07-05 The 3rd Edition of Literacy Learning in the Content Areas helps readers build the knowledge motivation tools and confidence they need as they integrate literacy into their middle and high school content area classrooms Its unique approach to teaching content area literacy actively engages preservice and practicing teachers in reading and writing and the very activities that they will use to teach
