100 Soa Questions Asked And Answered Ali Arsanjani:

100 SOA Questions Kerrie Holley, Ali Arsanjani, 2010-11-12 *100 SOA Questions* brings together authoritative answers to the most crucial questions business technical and architectural decision makers ask about SOA. It draws on the immense experience of two SOA experts who have participated in more than 100 SOA projects in the roles of architect, designer, consultant, technical manager and strategist. Organized to reflect the Open Group's Open Services Integration Maturity Model (OSIMM), this book provides fast convenient access to information about all facets of SOA planning, implementation, management and utilization. This book will be an invaluable resource for all executives, architects and practitioners who have just started their SOA journey or are well underway. In depth answers to questions about SOA topics such as SOA Concepts and Planning, Business Strategy, Organization and Support, Governance, Methods and Techniques, Applications, Architecture, Information Management, Infrastructure, The Future of SOA. *100 SOA Questions* answers the most critical questions executives and practitioners have about SOA. Kerrie Holley and Dr Ali Arsanjani draw on their unsurpassed experience from hundreds of SOA projects conducted worldwide. Why should business stakeholders care about SOA? What is the return on investment (ROI) of SOA adoption? What is flexibility and how does SOA deliver on this promise? Should service development be centralized in service centers? How should services be identified or specified to maximize reuse? How do SOA methods reduce the lifetime costs for applications? How can organizational barriers to SOA success be removed? What changes with application development when SOA is introduced? How does architecture change as a result of SOA adoption? What is a canonical message model? How does the SOA infrastructure support events? What are context aware services?

DSS 2.0 - Supporting Decision Making With New Technologies Sven Carlsson, Patrick Brezillon, 2014-05-15 Advances in technology have resulted in new and advanced methods to support decision making. For example, artificial intelligence has enabled people to make better decisions through the use of Intelligent Decision Support Systems (DSS). Emerging research in DSS demonstrates that decision makers can operate in a more timely manner using real time data more accurately due to data mining and big data methods more strategically by considering a greater number of factors more precisely and inclusively due to the availability of social networking data and with a wider media reach with video and audio technology. This book presents the proceedings of the IFIP TC8 Working Group 8.3 conference held at the Universit  Pierre et Marie Curie in Paris, France in June 2014. Throughout its history the conference has aimed to present the latest innovations and achievements in Decision Support Systems. This year the conference looks to the next generation with the theme of new technologies to enable DSS 2.0. The topics covered include theoretical, empirical and design science research, case based approaches in decision support systems, decision models in the real world, healthcare, information technology, decision making theory, knowledge management, knowledge and resource discovery, business intelligence, group decision support systems, collaborative decision making, analytics and big data, rich language for decision support, multimedia tools for DSS, Web 2.0 systems in decision support.

context based technologies for decision making intelligent systems and technologies in decision support organizational decision support research methods in DSS 2 0 mobile DSS competing on analytics and social media analytics The book will be of interest to all those who develop or use Decision Support Systems The variety of methods and applications illustrated by this international group of carefully reviewed papers should provide ideas and directions for future researchers and practitioners alike
