introduction to how Time Line therapy works in practice Written by Tad James and Wyatt Woodsmall Time Line Therapy and the Basis of Personality is a compelling study of the important elements that make up a person's core personality and a detailed exploration of and introduction to how Time Line therapy works in practice Utilizing discoveries made by Richard Bandler Time Line Therapy and the Basis of Personality expands and updates our knowledge of how people actually store their memories and sheds light on the effect that the system used for memory storage has on the individual The authors contend that the concept of Time Line or the notion of time that you have stored in your mind shapes and structures your experience of the world and therefore shapes your personality Time Line therapy is therefore based on the premise that the client goes back to the first time they remember a particular problem does change work utilizing Neuro Linguistic Programming NLP to eliminate irritating behaviors or issues and if necessary goes to subsequent times when their behavior or response was a problem and undertakes further change work to resolve it Time Line Therapy and the Basis of Personality offers readers the opportunity to see how Time Line therapy works providing a clear description of how to elicit the Time Line and sharing step by step methods to subsequently help the client to release a limiting decision or trauma remove anxiety or set a future goal All of these key aspects are explained using clear language and easy to follow steps and the authors expert commentary is further complemented by examples exercises and transcripts in order to help the reader transfer the theory into effective practice
