It offers an expansive overview of contemporary themes and issues throughout the intersections of the fields of fairy tale studies, literary studies and cultural studies. The first part considers global formations of the canon and acts to decolonize the field of fairy tale studies, highlighting the diverse national histories and traditions of the fairy tale worldwide. It demarcates the complex history of the field of fairy tale studies and demonstrates how the genre is rooted in different oral stories and narratives passed down in cultures around the globe throughout time. The second section outlines important critical approaches, including recent developments shaping fairy tale studies today, such as disability studies, diversity, ecocriticism, inclusivity and intersectionality. Part three explores how fairy tales have been articulated through a wide range of forms and combinations of textual, visual and sound media. This section foregrounds the versatility and adaptability of the fairy tale and more specifically how it intersects with different art forms and genres, including literature, illustrations, performing arts and media outlets. Section four addresses sociocultural concerns in transnational fairy tale cultures and literatures, examining the connections between fairy tales and multivocal influences in modern adaptations and postmodern reimaginings, the undoing of colonization and appropriation, feminism, politics and activism, the canon and controversies over authenticity. This interdisciplinary collection draws on international perspectives from folkloristics, ethnology, ethnography, cultural and social anthropology, as well as queer and gender studies. Rediscovered Classics of Japanese Animation Maria Chiara Oltolini, 2024-01-25 Rediscovered Classics of Japanese Animation is the first academic work to examine World Masterpiece Theater Sekai Meisaku Gekij 1969-2009, which popularized the practice of adapting foreign children's books into long-running animated series and laid the groundwork for powerhouses like Studio Ghibli. World Masterpiece Theater Sekai Meisaku Gekij 1969-2009 is a TV staple created by the Japanese studio Nippon Animation, which popularized the practice of adapting foreign children's books into long-running animated series. Once generally dismissed by critics, the series is now frequently investigated as a key early work of legendary animators Isao Takahata and Hayao Miyazaki. In the first book-length examination of the series, Maria Chiara Oltolini analyzes

cultural significance of World Masterpiece Theater and the ways in which the series pioneered the importance of children's fiction for Japanese animation studios and laid the groundwork for powerhouses like Studio Ghibli. Adapting a novel for animation also means decoding and re-coding socio-cultural patterns embedded in a narrative. World Masterpiece Theater stands as a unique example of this linguistic medial and cultural hybridisation. Popular children's classics such as *Little Women*, *Peter Pan* and *Anne of Green Gables* became the starting point of a full-fledged negotiation process in which Japanese animators retold a whole range of narratives that have one basic formula in common: archetypal stories with an educational purpose. In particular, the series played a role in shaping the pop culture image of a young girl, *Shōjo*. Examining the series through the lens of animation studies as well as adaptation studies, Oltolini sheds new light on this long-neglected staple of Japanese animation history.
