Unpacking My Library Marcel Proust,2017-01-01 A captivating tour of the bookshelves of ten leading artists exploring the intricate connections between reading artistic practice and identity Taking its inspiration from Walter Benjamin s seminal 1931 essay the Unpacking My Library series charts a spirited exploration of the reading and book collecting practices of today s leading thinkers Artists and Their Books showcases the personal libraries of ten important contemporary artists based in the United States Mark Dion Theaster Gates Wangechi Mutu Ed Ruscha and Carrie Mae Weems Canada Janet Cardiff and George Bures Miller and the United Kingdom Billy Childish Tracey Emin and Martin Parr Through engaging interviews the artists discuss the necessity of reading and the meaning of books in their lives and careers This is a book

about books but it even more importantly highlights the role of literature in shaping an artist's self presentation and persona. Photographs of each artist's bookshelves present an evocative glimpse of personal taste of well loved and rare volumes and of the individual touches that make a bookshelf one's own. The interviews are accompanied by top ten reading lists assembled by each artist, an introduction by Jo Steffens and Marcel Proust's seminal essay *On Reading*. [The Year's Work in Nerds, Wonks, and Neocons](#) Jonathan P. Eburne, Benjamin Schreier, 2017-04-17. Essays on intellect, passion, alienation and America's geeky subcultures. What happens when math nerds band and theater geeks goths sci fi fanatics Young Republican debate poindexters techies Trekkies D D players wallflowers bookworms and RPG players grow up. And what can they tell us about the life of the mind in the contemporary United States. With recent years bringing us phenomena from GamerGate to The Big Bang Theory it's clear that nerds, policy wonks and neoconservatives play a major role in today's popular culture. *The Year's Work in Nerds, Wonks and Neocons* delves into subcultures of intellectual history to explore their influence on contemporary American intellectual life. Not limiting themselves to describing how individuals are depicted, the authors consider the intellectual endeavors these depictions have come to represent, exploring many models and practices of learnedness, reflection, knowledge production and opinion in the contemporary world. As teachers, researchers and university scholars continue to struggle for mainstream visibility, this book illuminates the other forms of intellectual excitement that have emerged alongside them and found ways to survive and even thrive in the face of dismissal or contempt. *Engaging with the Past and Present* Paul M. Dover, 2023-06-05. This collection brings together fifteen essays from practitioners of a variety of disciplines that concern themselves with the past, not only historians but scholars from other branches of the humanities and social sciences including theology, art history, public history and archival science and natural sciences including geology, paleontology, astronomy and paleoanthropology. What is the relationship between the past and the present? This essential and seemingly straightforward question of central importance to many fields of study in fact yields a variety of answers with significant repercussions for methodology, epistemology and pedagogy. This volume's contributors describe how they relate phenomena in the past and their observations of the present, revealing intellectual resonances and opportunities for dialogue across subjects that are too often walled off from one another. By engaging scholars in a conversation about a first principle of their work, this book offers a genuinely interdisciplinary consideration of a timeless question with implications for knowledge about both past and present. *Engaging with the Past and Present* is full of insights and ideas for anyone seeking to understand the past or employ it as evidence for understanding present realities. *Princeton Alumni Weekly*, 1998.
