14 November Pgrade 12 Geograph Memo:

Waterloo Sunrise John Davis, 2024-03-26 This is an urban history of London during the pivotal years of the 1960s and 1970s when the metropolis was transformed from an industrial city that the Victorians might have recognised to an embryonic modern world city Previous work on London in these years has tended to focus upon the 1960s in particular the Swinging London phenomenon Mary Quant Carnaby Street and the King s Road Chelsea all appear in these pages but it is argued that the swinging moment of the mid sixties was a passing symptom of a much broader transformation from an industrial to a service based city and it is that transformation which this book examines London is too complex and diverse a city to be comprehended in a simple linear narrative this book adopts instead an innovative approach to urban history by which London life and London s transformation are examined through a number of case studies looking at specific themes and areas of the city Consumerism and the experience economy home ownership and gentrification deindustrialisation and deprivation racial tension and unemployment the attrition of public services and the steady loss of confidence in public agencies national and local emerge as overarching themes from the individual case studies in this book Their combined effect it is argued was to prepare the ground for the Britain that Margaret Thatcher is usually held to have created after 1979 without Thatcher herself having anything to do it

In *The Geography of Injustice* Barak Kushner argues that the war crimes tribunals in East Asia formed and cemented national divides that persist into the present day In 1946 the Allies convened the Tokyo Trial to prosecute Japanese wartime atrocities and Japan s empire At its conclusion one of the judges voiced dissent claiming that the justice found at Tokyo was only the sham employment of a legal process for the satisfaction of a thirst for revenge War crimes tribunals Kushner shows allow for the history of the defeated to be heard In contemporary East Asia a fierce battle between memory and history has consolidated political camps across this debate The Tokyo Trial courtroom as well as the thousands of other war crimes tribunals opened in about fifty venues across Asia were legal stages where prosecution and defense curated facts and evidence to craft their story about World War Two These narratives and counter narratives form the basis of postwar memory concerning Japan s imperial aims across the region The archival record and the interpretation of court testimony together shape a competing set of histories for public consumption *The Geography of Injustice* offers compelling evidence that despite the passage of seven decades since the end of the war East Asia is more divided than united by history *Register of the Department of State for the Year ...* United States.
