The Great Music City Andrea Baker, 2019-03-01 In the 1960s as gentrification took hold of New York City Jane Jacobs predicted that the city would become the true player in the global system Indeed in the 21st century more meaningful comparisons can be made between cities than between nations and states Based on case studies of Melbourne Austin and Berlin this book is the first in depth study to combine academic and industry analysis of the music cities phenomenon Using four distinctly defined algorithms as benchmarks it interrogates Richard Florida's creative cities thesis and applies a much needed synergy of urban sociology and musicology to the concept mediated by a journalism lens Building on seminal work by Robert Park Lewis Mumford and Jane Jacobs it argues that journalists are the cultural branders and street theorists whose ethnographic approach offers critical insights into the urban sociability of music activity Carceral Mobilities Jennifer Turner, Kimberley Peters, 2016-12-01 Mobilities research is now centre stage in the social sciences with wide ranging work that considers the politics underscoring the movements of people and objects critically examining a world that is ever on the move At first glance the words carceral and mobilities seem to sit uneasily together This book challenges the assumption that carceral life is characterised by a lack of movement Carceral Mobilities brings together contributions that speak to contemporary debates across carceral studies and mobilities research offering fresh insights to both areas by identifying and unpicking the manifold mobilities that shape and are shaped by carceral regimes It features four sections that move the reader through the varying typologies of motion underscoring carceral life tension circulation distribution and transition Each mobilities led section seeks to explore the politics encapsulated in specific regimes of carceral movement With contributions from leading scholars and a range of international examples this book provides an authoritative voice on carceral mobilities from a variety of perspectives including criminology sociology history cultural theory human geography and urban planning This book offers a first port of call for those examining spaces of detention asylum imprisonment and

containment who are increasingly interested in questions of movement in relation to the management control and confinement of populations Smart Sustainable Cities and Knowledge-Based Economy Enrico Ivaldi, Andrea Ciacchi, 2023-07-10 This book provides information and resources to city planners and other public policy officials on the importance of smart sustainable cities and their relationship with urban knowledge based economy It answers important topical questions relating to urban sustainable development and human well being namely how can we implement policies and programs that can make cities smart and boost their knowledge based development How can such programs reduce inequalities and enhance the environment where people live and work The authors suggest a new approach to the creation of sustainable smart cities not only in metropolises but also in smaller urban spaces They advance the body of knowledge in entrepreneurship literature by examining both the European regional understanding of entrepreneurship and the quality of life and well being at city levels They also provide synthetic indexes to assess the relationship between perceived quality of life and entrepreneurship This book stimulates the debate on the role of smart cities in promoting entrepreneurship which is a currently under investigated topic in Europe and is of interest to a wide range of practitioners professionals and academics in the area of well being and quality of life research urban studies public policy and sustainable development Insight Turkey 2015 - Fall 2015 (Vol. 17, No. 4) , Last year was the year of elections in Turkey with two parliamentary elections and months long electoral campaigns that dominated the political agenda of the country The parliamentary elections of June 7 2015 brought an end to the AK Party s 12 year long era of parliamentary majority and single party government in Turkey Nevertheless the endeavors to form a coalition government could not be concluded successfully and another election appeared on the horizon The country was ruled by an AK Party led interim government and the elections were repeated five months later on November 1 2015 While close in time the two elections were quite distant with regard to the political contexts in which they were carried out and in their respective results The November elections witnessed a comeback for the AK Party which increased its votes by over 9 points with the addition of five million new votes in the ballot box
