Shad Morris, James Oldroyd

2014 November Zimsec Economics Questions Paper 3:

Agriculture, Autonomous Development, and Prospects for Industrialization in Africa Emmanuel Ndhlovu, 2025-03-06 The book investigates the intersection of agriculture and development in Africa and how it impacts rural industrialisation prospects. It provides a comprehensive view of the position of agriculture in African socio economic activities and the agricultural sector's potential as the source for continental development and industrialisation prospects. Significant research has been done on African development with a focus placed on the problematic role played by slavery colonialism and later by incompetent African leaders who failed to steer development of the type that delivers a progressive sustained and sustainable transformation of lives and societies. There is limited focus on the possibility of agriculture being the potential basis of African development and the chance for industrialisation. This is a matter of concern considering the dominance of agriculture as a livelihood and income source for many people on the continent. In contributing to the debate on development in Africa, this book aims to show how agriculture can serve as the basis for African development and industrialisation. This will be achieved by i providing a detailed historical description of the position of agriculture in African socio economic activities ii outlining the trajectory of African development with a focus on agriculture innovation and mechanisation iii identifying challenges to the development of African agriculture iv exploring the opportunities for agricultural development in Africa and v providing practical and policy recommendations to improve African agriculture and make it the engine for development and industrialisation. Utilising a multidisciplinary approach which combines political economy social policy financial inclusion and empowerment approaches, the book also shows how engagement of youth and women digitalisation and the provision of support by public and private actors can jump start agriculture as the engine of African development and industrialisation. Taken together with this conscious effort to promote a multi disciplinary discussion, the book is valuable reading for students policymakers and activists interested in emerging new directions in African development thinking and research.

Mugabeism? Sabelo J. Ndlovu-Gatsheni, 2015-12-26 What is distinctive about this book is its interdisciplinary approach towards deciphering the complex meanings of President Gabriel Mugabe of Zimbabwe, making it possible to evaluate Mugabe from a historical political philosophical gender literal and decolonial perspectives. It is concerned with capturing various meanings of Mugabeism.

The Political Economy of Xenophobia in Africa Adeoye O. Akinola, 2017-11-13 This book analyzes the phenomenon of xenophobia across African countries. With its roots in colonialism which coercively created modern states through border delineation and the artificial merging and dividing of communities, xenophobia continues to be a barrier to post colonial sustainable peace and security and socio economic and political development in Africa. This volume critically assesses how xenophobia has impacted the three elements of political economy: state, economy and society. Beginning with historical and theoretical analysis to put xenophobia in context, the book moves on to country specific case studies discussing the nature of xenophobia in Nigeria, South Africa, Zambia, Ghana and Zimbabwe. The chapters furthermore

explore both violent and non violent manifestations of xenophobia and analyze how state responses to xenophobia affects African states economies and societies especially in those cases where xenophobia has widespread institutional support Providing a theoretical understanding of xenophobia and proffering sustainable solutions to the proliferation of xenophobia in the continent this book is of use to researchers and students interested in political science African politics peace studies security and development economics as well as policy makers working to eradicate xenophobia in Africa

Constitutionalism and the Economy in Africa Charles M. Fombad, Nico Steytler, 2022-11-14 Despite expectations that the celebrated second wave of constitutional democracy in the 1990s would facilitate economic development Africa remains the continent with the highest level of poverty in the world The fight against poverty hinges on a vibrant economy that creates jobs and income by generating enough revenue to enable the state to take pro development measures However instead of the economic benefits that were supposed to accrue from the constitutional reforms of the last three decades including entrenching a market economy African economies remain weak a situation that has been aggravated by the COVID 19 pandemic By focusing on the relationship between constitutionalism and economic growth in Africa this volume addresses five questions 1 In the constitutional reforms of the 1990s and thereafter did constitutions also reflect the shift towards a market economy and if so in what manner 2 Given that agriculture and extractive industries are the main sources of state revenue in many African economies how are matters of land and other natural resources dealt with constitutionally 3 Where the market economy is captured in a constitution what is the state s relationship to that economy interventionist or laissez faire or somewhere in between Have constitutions also established a social state that provides its citizens with the basic elements of a dignified life 4 In the process of constitution making and implementation concerning the economy what impact has globalization had on constitutionalism and economic growth in Africa 5 Finally how has the relationship between constitutionalism and economic growth played out in practice Is there a symbiotic relationship Has constitutionalism led or may do so to greater economic prosperity Constitutionalism and the Economy in Africa offers a range of comprehensive arguments and case studies that will be of interest and use to academics post graduate students judges lawyers economists and policy makers involved in the economic role of the State the impact of globalization and the constitutional foundations for land and natural resources exploitation Post-colonial struggles for a democratic Southern Africa Carolyn Bassett, Marlea Clarke, 2017-06-26 National liberation one of the grand narratives of the twentieth century has left a weighty legacy of unfulfilled dreams This book explores the ongoing struggle for legitimate accountable political leaders in postcolonial Southern Africa focussing on dilemmas arising when ex liberation movements form the governments While the spread of multi party democracy to most countries in the region is to be celebrated democratic practice often has been superficial a limited elitist politics that relies on the symbols of the liberation struggle to legitimate de facto one party rule and authoritarian practices Using country cases from Tanzania Swaziland Zimbabwe South Africa and Zambia the collection

explores three subthemes relevant to postcolonial governance in Southern Africa how the struggle for liberation shapes the character of political transformation the nature of rule in one party dominant states headed by former liberation movements and the processes of governance and resistance in post liberation contexts This book was published as a special issue of the Journal of Contemporary African Studies **State, Land and Democracy in Southern Africa** Arrigo Pallotti, Corrado Tornimbeni, 2016-03-03 Each country in southern Africa has a unique history but in all of them socio economic inequalities and high poverty levels weaken the governments legitimacy and represent a challenge to models of economic development One key issue appears to be the solution of the land question This vital concern affects both citizenship and democracy in the political systems of the region yet no government has shown the capacity or commitment to solve it In this volume leading European American and African scholars explore in detail the relationship between state land and democracy They examine the historical background of asset allocation and its impact on questions of nationality the definition of citizenship human rights and the current political and economic processes in southern Africa International Business, International Adaptation Shad Morris, James Oldroyd, 2023 With the incisive and comprehensive exploration of international business in the modern world in this edition of International Business an accomplished team of educators and business practitioners delivers a revitalized approach to the discipline that brings international business to life This edition of the book includes one of a kind chapters on sustainability poverty and innovation as well as explorations of the COVID 19 pandemic and its effects on commerce the business implications of social and civic justice race and inequality debates and new case studies including one on equity diversity and inclusion at Microsoft The book efficiently prepares students for the global economy and transforms the authors impressive international experience at multinational corporations into an indispensable pedagogical resource This international adaptation further strengthens the bond between the readers and the contemporary world of international business through the introduction of new case studies caselets illustrations and exhibits related to India Australia bilateral trade association solar mamas of Sudan evolution of Islamic banking in Tanzania McDonald s kosher menu in Israel and so on It takes us through the emerging factors affecting the international business such as digital transformation and global supply chain strategies post COVID 19 Critical thinking questions added at the end of each chapter will encourage the students to think analytically and delve deeper into the topic Minerals Yearbook Geological Survey, Interior Department, Mines Bureau, 2019-02-15 This volume covering metals and minerals contains chapters on approximately 90 commodities In addition this volume has chapters on mining and quarrying trends and on statistical surveying methods used by Minerals Information plus a statistical summary Minerals Yearbook Geological Survey, Interior Department, Mines Bureau, 2019-02-15 This volume covering metals and minerals contains chapters on approximately 90 commodities In addition this volume has chapters on mining and quarrying trends and on statistical surveying methods used by Minerals Information plus a statistical summary **Morgan Richard Tsvangirai's Legacy**

Ngonidzashe Marongwe, 2022-03-11 Morgan Richard Tsvangirai is arguably the most polarising figure and advocate of democracy and human rights in the history of opposition politics in Zimbabwe. He is as much a topic of debate in Zimbabwe and beyond as the late president Robert Gabriel Mugabe. Tsvangirai's legacy like Mugabe's remains indisputably controversial and conflicted. Broadly, the divided opinion on the Tsvangirai legacy can be represented firstly by those who argue that Tsvangirai was the champion of democracy and the face of the struggle for human rights in Zimbabwe. In this light, Tsvangirai has been variously described as a selfless people's hero, a colossus of the struggle for democracy, the commander of the struggle, a symbol of courage and resistance, and the doyen of constitutionalism in Zimbabwe. On the other hand, critics have described Tsvangirai as a sell-out, a Judas Iscariot, traitor, and coward among other nefarious and pejorative characterisations. Drawing on all these opinions and the various characterisations of Tsvangirai, this book provides a comprehensive and multi-disciplinary appraisal of a gigantic trade unionist and political figure who in his life and in death inspires different narratives, emotions, and values. This book is therefore about a mortal but living figure who left an indelible mark on Zimbabwe, Africa, and the rest of the world in fields such as trade unionism, governance, and politics. As such, the book is handy for students and practitioners in African studies, political science, policy studies, economics, history, global studies, and development studies.
